

# ON HER TRIAL TRIP

Battleship Illinois Proves to Be the Speediest of Her Class in the World.

A NEW RECORD WAS MAINTAINED.

She Made an Average Speed of 17.31 Knots for Four Consecutive Hours Wednesday.

She Proved Her Ability to Turn on an Enemy With Extraordinary Quickness By Describing a Circle in Short Space.

Boston, June 13.—With the distinction of being the fastest battleship in America and the speediest of her class in the world, the Illinois lies at anchor in President's Roads Wednesday night. Over the government course from Cape Ann to Cape Porpoise and return, a distance of 66 nautical miles, she raced Wednesday, watched by United States naval representatives, and established a new record by maintaining an average speed of 17.31 knots for four consecutive hours. Not only did she demonstrate that she was faster than any warship of her size afloat, but she proved her ability to turn upon an enemy with extraordinary quickness by describing a complete circle within 300 yards, or little more than twice her length, in three minutes and ten seconds, while ploughing through the sea at full speed.

**Put to a Severe Test.**  
Steadiness and reserve power characterized the performance of the ship throughout the severe test. The

## WILL BACK STRIKERS.

Amalgamated Society of Engineers, London, With \$8,000,000 in Its Treasury, Will Aid.

New York, June 13.—At the headquarters of the striking machinists in this city Wednesday a cable dispatch was received from the Amalgamated Society of Engineers, of London, promising financial aid. This society is the strongest trades union in the world, and is said to have over \$8,000,000 in its treasury. The American Federation of Labor, it was declared, will tax its 2,000,000 members ten cents each for the striking machinists.

## LIGHTNING'S WORK.

Fire Marshal Driscoll Stunned Just As He Was Preparing to Answer a Call For a Fire.

Chicago, June 13.—During a storm Wednesday night the residence of Fire Marshal M. R. Driscoll, in South Chicago, was shattered by lightning just as the marshal himself was preparing to answer a call with the department to another residence which had been set on fire by the lightning. The fire marshal was stunned and left unconscious by the stroke. His wife quickly revived him by sprinkling water on his face, but while she was thus engaged the fire cut off

# ADOPTED AT LAST.

The Cuban Constitutional Convention Accepted the Platt Amendment.

THE VOTE WAS SIXTEEN TO ELEVEN.

Senor Ferrer Believed That Acceptance Would Be the Best Solution of the Problem.

The Convention Will Now Appoint a Commission to Draw Up the Electoral Law—How the Delegates Voted.

Havana, June 13.—The Cuban constitutional convention Wednesday accepted the Platt amendment by a vote of 16 to 11. The resolution to accept was carried without discussion. Immediately after the opening of the session Senors Tamayo, Villuendas and Quesada, constituting a majority of the committee on relations, submitted as a substitute for the committee's former report the Platt amendment as passed by congress, recommending that it be accepted and made an appendix to the constitution.

In the vote on the resolution the 27 delegates present divided as follows:

In favor of acceptance: Senors Capote, Villuendas, Jose M. Gomez, Tamayo, Montegudo, Delgado, Betancourt, Giberca, Lorente, Quesada Sanguily, Nunez, Rodriguez, Berriel, Quilez and Ferrer.

Opposed to acceptance: Senors Zayas, Aleman, Einaldo Tamayo, Guan Guaberto Gomez, Cisneros, Silvala, Fortun, Laerret, Portuondo, Castro and Manduley.

Senors Rivera, Corresco, Gener and Robau were absent.

The latter two voted against acceptance in the previous division.

Senor Ferrer voted with the conservatives, explaining his change of attitude by asserting that he believed acceptance would be the best solution of the problem.

The convention will now appoint a commission to draw up the electoral law.

## AT WASHINGTON.

Authorities Pleased Over the Action of the Cubans—Our Troops Will Be Withdrawn Soon.

Washington, June 13.—The news of the adoption of the Platt amendment by the Cuban constitutional convention was received with genuine gratification here. The administration officials all along felt confident that its ratification would be accomplished when the Cubans realized that this government was firm in its attitude regarding the amendment and that its acceptance would be necessary before the United States would consent to withdraw its supervision from the island.

Now that the Cubans have demonstrated their good faith in the United States, it is expected that a fairly speedy evacuation of the island will follow, contingent only upon the establishment of a stable government in the islands.

**Cuban Independence Assured.**  
Just to what extent the United States will require practical evidence of this fact is not definitely known, but the officials here think that such steps should be taken by the Cubans as will demonstrate their ability to maintain order and peace so that the interests of all the people, native and foreign, shall be adequately protected.

An effective police force and other measures necessary to the preservation of good order and sanitation are deemed as essential pre-requisites in the formation of the new government. The mere physical question of the withdrawal of the American militia from the island is an easy one and can be accomplished without much delay.

One cabinet officer, speaking of the matter Wednesday night, expressed the opinion that if the other requirements are met our withdrawal might be accomplished during the summer, and that Cuban independence might be a reality by next autumn.

**Gen. Lee's Bronze Bust.**  
Lexington, Va., June 13.—Gen. Robert E. Lee's bronze bust, by Frederick Volk, has been presented to Washington and Lee university by Frank T. Howard, of New Orleans. The bronze is life-size. The artist was employed by the confederate government to make the bust during the civil war.

**Storm at Oshkosh.**  
Oshkosh, Wis., June 13.—A terrific hail storm swept over this section Wednesday afternoon. Windows were broken and trees and shrubbery demolished. A number of buildings in the city were partially wrecked. The storm extended from ten miles south to a considerable distance north.

**Six of the Crew Deserted.**  
Memphis, Tenn., June 13.—Six of the crew of the United States gunboat Scorpion deserted while that vessel was in port. Lieut. Commander Sargent offered a reward for the apprehension of the men, but no trace of them has been found.

**Party of Boers Captured.**  
Pretoria, June 13.—Gen. Pulten's division has captured a party of Boers, including a brother of Acting President Schalkburger, on the Swaziland border.

## RESISTED ARREST.

Sheriff Mortally Wounded, One Mexican Killed and Another Badly Wounded.

Kennedy, Tex., June 13.—Sheriff W. T. Morris in attempting to arrest two Mexicans about ten miles west of here, was shot and mortally wounded by one of them Wednesday. Morris killed the man that shot him and wounded his other assailant. The wounded man escaped, but officers have gone in pursuit. Excitement is high, and threats of lynching are freely made in the event of a capture being made. Morris is one of the best known and popular officers of the border section of Texas.

**Mills to Be Erected at Pueblo.**  
Chicago, June 13.—Contracts for the building of a wire mill, a nail mill and a hoop mill were closed here Wednesday for the Colorado Fuel & Iron Co. The three mills will be erected at Pueblo, and the aggregate cost is \$4,000,000.

## AN EXCELLENT COMBINATION.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

It is a safe and reliable remedy for all cases of constipation, indigestion, and all other ailments of the bowels.

Manufactured by J. H. WOOD & SONS, Maysville, Ky.

The United States Battleship "Illinois."

work of her engines was smooth and even, and the records of the day showed but one-tenth of a knot difference in speed between the northern run and the return. The machinery easily met every requirement and not an accident of any kind marred the success of the day.

Rr. Adm. Sampson, who was aboard unofficially; Rr. Adm. Evans, who acted as president of the trial board, and the other naval officers who participated in the trial, were thoroughly pleased with the new champion, and as she steamed back to her anchorage with a broom at her masthead, the officials of the Newport News Shipbuilding Co., whose three years of labor had reached such a happy climax, were enthusiastically congratulated.

## Perfect Day For the Trial.

The day could not have been more perfect for the trial. The ship crossed the starting line at 10:12 a. m., with her engines registering 117 revolutions a minute. Buoy No. 6, indicating the end of the 33-knot run northward, was passed at 12:05:07, showing the elapsed time for the run to be one hour, 45 minutes and 4 seconds, giving an average speed for the 33 knots of 17.36 nautical miles per hour. For a part of the northward run the Illinois made a speed of 17.84 knots an hour, and at no time did she drop below 16.97. On the return the elapsed time between buoys was about the same as during the first half of the trial. Again she reached a maximum speed of 17.84, with a maximum of 16.97. The finish line was passed, and the speed trial was over at 1:18:23, the elapsed time being 1:54:42, and the average speed for the second half of the trial 17:26. The completed figures for the entire 66 knots was 3:45:46 elapsed time, and the average speed 17:31 knots per hour.

## Naval Authorities Pleased.

Washington, June 13.—News of the splendid performance of the battleship Illinois on her trial trip Wednesday night in a dispatch from Capt. Robley Evans, the chairman of the trial board. It contained the same information as that in the press dispatches. Secretary Long said: "We think she will prove herself one of the best ships in the American navy. The result speaks admirably for the American shipbuilder. We are in the lead."

the exits in front and the marshal, upon regaining consciousness, had to carry his wife, her mother and his children to a place of safety. Then he directed the department in its work both upon his own residence and the neighboring houses first struck.

## A NAVAL STATION.

It Is Likely That a First Class One Will Be Established on the Island of Porto Rico.

Washington, June 13.—Secretary Long will appoint a board of naval officers to proceed to Porto Rico to examine into the advisability of establishing a United States naval station on that island. The present inquiry contemplates not only a rendezvous for ships, but the establishment of a first-class naval station at one of the eastern outposts of the Antilles.

## Battleship Oregon at San Francisco.

San Francisco, June 13.—The battleship Oregon arrived late Wednesday afternoon from the Orient. Preparations had been made to make the home-coming of the famous vessel a memorable one, but they were anticipated by the arrival of the vessel 24 hours earlier than she was expected.

## Torpedo Boat Goldsborough.

Seattle, Wash., June 13.—The torpedo boat Goldsborough, which has for the past two years been having trial and failed, Wednesday afternoon went out on what was to have been her final test and broke her shaft. It is expected the break will be repaired in ten days.
