## FOUR STATES QUAKE

ILLINOIS, MICHIGAN, WISCONSIN  
AND IOWA TREMBLE.

Big Chicago Skyscrapers Tremble  
Like Human Beings—The  
Panic Was Widespread.

Chicago.—Chicago and four states  
were rocked by an earthquake Wednesday  
morning, throwing at least half of  
its inhabitants into a mortal terror.

Every city, village and hamlet in  
Northern Illinois felt the shock and the  
panic was widespread. Iowa, Michigan  
and Wisconsin were also in the path of  
the trembler. Thousands of persons were  
aroused from their slumbers, and in the  
foreign settlements of Chicago, particularly  
where Italians and Sicilians congregate,  
there was alarm which gave rise to  
wailing and prayers as the inhabitants  
thought that they were about to suffer  
the same fate which destroyed so many  
thousands of their countrymen.

Big skyscrapers in the downtown district  
trembled like living beings with the  
quake. Many dilapidated old structures  
collapsed in different parts of the city,  
floors were thrown off the shelves and  
broken, windows were cracked in many  
portions of the residence districts of May-  
wood, Evanston and other suburban  
towns, and many residents were so  
frightened that they ran into the street  
fearing that the roofs were about to fall  
over their heads.

## WORST FLOOD IN YEARS.

Trains on Three Railroad Systems  
Indefinitely Annulled.

Meridian, Miss.—Three more inches of  
rainfall were today added to the record-  
breaking downpour of Monday night and  
yesterday, and tonight all of the large  
streams south of Meridian are reported  
still rising. The rise, too, has passed all  
previous high-water marks, and the damage  
will not be known until the water  
recedes.

All trains south and west of Meridian  
on the Alabama and Vicksburg, Mobile  
and Ohio and New Orleans and North-  
western roads have been indefinitely  
annulled. Each road is reported to have  
suffered the loss of many miles of road-  
bed and numbers of trestles. The Mobile  
and Ohio, Alabama Great Southern and  
Southern Railway are maintaining trains  
north of Meridian, but are slow sched-  
ules.

Tonight it is reported from the local  
weather bureau that Enterprise and Shu-  
buta are in the grasp of the worst flood  
in history. The water in the business  
district of Enterprise being almost to the  
second stories of some business buildings,  
and Shubuta being an island, entirely  
cut off from the outside world except  
for telephone and telegraph communi-  
cation, which are yet intact. At En-  
terprise stocks of goods have been moved  
from lower to upper floors, and it is  
thought the damage to them will not be  
so great. People are moving about the  
town in skiffs.

## ENTERPRISE UNDER WATER.

Train Service on Mobile and Ohio North  
of Quitman Abandoned.

Quitman, Miss.—As a result of the  
heavy rainfall Tuesday, the Chickasaw  
river is out of its banks and is still ris-  
ing, and it is believed that it will equal  
the 1906 high water mark.

Train service on the Mobile and Ohio  
north of Quitman has been abandoned.  
Train No. 2 is tied up at Enterprise and  
cannot move either way. The people at  
Enterprise seem to be suffering the most.  
There is five feet of water in the busi-  
ness portion of the town, and all the  
stores and many of the residences are  
under water. People can navigate only  
by boat there.

The crops in the lowlands will be a  
complete loss, unless replanted. Many  
people rushed into the swamps and drove  
their cattle to high land.

## COTTON CROP IS RUINED.

Too Late Now to Replant the Overflowed  
Lands.

West, Miss.—A heavy downpour of  
rain has been falling since about 11  
o'clock last night. This, in addition to  
the heavy rains of Monday and Monday  
night, which caused the Big Black river  
to overflow all the lowlands, will make  
the river higher here than it has been  
for the past twelve months. Thousands  
of acres of land, on which cotton and  
corn are now up and some of it worked  
out, will be inundated. By the time the  
water recedes, it will be too late to  
replant much of this land in cotton. Some  
farmers will lose almost their entire  
cotton crop. There have been a number  
of small washouts on the Illinois Central  
railroad, but with a big force of men at  
work, trains are kept running with but  
little delay.

## Whole Farms Under Water.

Hollandale, Miss.—A heavy rain set in  
Wednesday night and continued most of  
today. Whole farms are under water,  
and much damage to cotton and corn will  
result.

## AN OBJECT LESSON.

## BREAKS SPEED RECORD

BATTLESHIP MISSISSIPPI GOES  
297 MILES IN 14 HOURS.

On the Way to Horn Island, Where  
Presentation of Silver Service  
Will Be Made.

New Orleans.—Several hours ahead of  
her schedule, and having broken all re-  
cords for speed, the big battleship Missis-  
sippi reached the navy yards off here at  
7 o'clock Tuesday evening. Having  
left Natchez at 5 o'clock, the trip, a dis-  
tance of 297 miles, was made in the  
marvelously short time of 14 hours.

It was fitting that the finish of the  
cruise of the battleship to the state after  
which she is named should be a record  
breaker. The cruise itself broke all re-  
cords—records for the size of the vessel,  
for the hospitality of the people and for  
the interest excited and the good the  
trip has done.

So, when the big warship got under  
draft and was headed down the stream,  
Capt. Fremont decided to "let her out a  
little." Aided by the current, and headed  
in to a wind, which helped the draft  
of her boilers, she soon made a speed of  
22 knots an hour, which, Commander  
Cluverius laughingly remarked, "makes  
her the fastest battleship of this or of  
any other navy."

## JAPANESE MAY ATTACK US

Activity Expected Six Months Be-  
fore Opening of Canal.

Washington.—War college experts who  
have been paying special attention to  
international relations have reached the  
conclusion that if Japan makes a demon-  
stration against the United States (and  
it is expected), her activity will  
begin six months before the completion  
of the isthmian canal.

Secretary of War Dickinson and Gen.  
Franklin Bell, chief of staff, U. S. A.,  
have made special observations looking  
to the realization of the fortifications  
on the canal as mapped out by Presi-  
dent Taft when he was secretary of war.

The canal cannot be finished until  
January 1, 1915, but the war department  
knows that the manufacture of fourteen  
and sixteen-inch guns and construction  
of emplacements, establishment of fire  
control and placing of searchlights can-  
not be realized for three or four years.

In other words, it is necessary to be-  
gin on the specific plans for the placing  
of the modern high power guns which  
are to "take the place of treaties."

"It is manifest that there is no hope  
in the obligation of treaties; the power  
that proposes to keep the canal open  
must be able to deal not only with an  
aggressive enemy, but with a combina-  
tion of enemies. Otherwise, fortification  
would be vain.

"This is the one question of the highest  
local and international importance  
with which the United States has to deal  
now, and will have to deal continuously  
for the next three or four years."

## Good Roads Car Off.

New York.—The good roads scout  
automobile, under the auspices of the New  
York Herald and the Atlanta Journal,  
started Tuesday on a trip from Herald  
Square to Atlanta, Ga. Maj-Gen. Leon-  
ard Wood, U. S. A., commanding the  
Department of the East, and a number  
of prominent automobile manufacturers,  
witnessed the departure. R. H. Johnson  
will drive the car.

## Hero Fund for France.

Paris.—Andrew Carnegie has arranged  
to give \$1,000,000 for the establishment  
of a "hero fund" in France, under  
practically the same conditions as govern-  
ment similar funds in the United States,  
England and Scotland.

## ADJUTANT-GENERAL RESIGNS.

Frankfort, Ky.—It is reported here  
that Adjt.-Gen. P. P. Johnston has writ-  
ten a letter of resignation to Gov. Wil-  
son. The governor says he knows no  
reason why Gen. Johnston should re-  
sign. The latter left Saturday to visit  
his orange plantation in Florida. The  
report is that he objected to alleged in-  
sults regarding his handling of the  
state's military fund, and so expressed  
himself in a scorching letter to the gov-  
ernor, which he showed to his depart-  
ment officials before mailing.

## SHIPP IS IN CONTEMPT

SHERIFF HELD BY FEDERAL  
SUPREME COURT.

Five Others in Same Boat—Grows  
Out of Lynching of Negro  
Prisoner.

Washington.—For the first time in so  
serious a case, the supreme court of the  
United States will undertake to mete  
out punishment for the crime of con-  
tempt of the court itself, and the im-  
portance of the occasion will be em-  
phasized by the number of defendants.  
The proceeding will take place in con-  
nection with the cases of Sheriff Shipp  
and Deputy Sheriff Gibson, of Hamilton  
county, Tenn., and of four other resi-  
dents of that county, named, respec-  
tively, Williams, Nolan, Padgett and Magy.  
These men were declared to be guilty  
of an act of contempt in combining, in  
1905, in a conspiracy to lynch a negro  
named Johnson, who had been sentenced  
to death by the local court on the charge  
of criminal assault, and in whose case  
the supreme court had interfered to the  
extent of granting an appeal, which had  
the effect of a supersedeas. On the  
night following the announcement of the  
court's action, Johnson was taken out  
of the jail in Chattanooga by a mob and  
lynched. There was no resistance on  
the part of jail authorities, and Shipp  
and a number of his deputies, as well  
as about twenty citizens, were proceeded  
against on the charge of contempt of the  
federal court.

The sentence may be either fine or  
imprisonment, or both.  
The case is regarded as of exceptional  
interest because it is practically the first  
time that the supreme court has ever  
undertaken to assert its dignity or to  
resent acts or words reflecting upon it.

## BAPTIST TRI-STATE HOSPITAL

Work on \$400,000 Building to  
Begin in the Fall.

Memphis, Tenn.—In early fall ground  
will be broken for the new Tri-State  
Baptist Hospital, which will be erected  
on Madison avenue, east of the College  
of Physicians and Surgeons, at a cost of  
\$400,000.

Already \$175,000 has been raised for  
the hospital, and subscriptions are being  
received daily from generous donors of  
Tennessee, Mississippi and Arkansas.

Members of the building committee  
will visit hospitals in the larger cities of  
the United States, and one member of  
the committee will leave soon for Eu-  
rope, with the view of visiting hospitals  
of the most modern design and construction,  
after which the new Tri-State Hos-  
pital will be patterned.

## FREE LUMBER DEFEATED

Democratic Division Gives Aldrich  
Some Hope.

Washington.—Free lumber met its  
waterloo in the senate Monday. Senator  
McClumbers' amendment putting rough  
lumber on the free list was defeated by  
a vote of 56 to 25. Senator Johnston's  
amendment making all building materi-  
als free was lost by the more decisive  
vote of 64 to 12.

This vote on lumber was the second  
test of the Aldrich protective policy  
strength in the senate. The first test  
came on the vote putting a duty of 25  
cents a ton on iron ore. The votes on  
the lumber and iron ore schedules were  
the same practically. It is this vote  
that will enable Senator Aldrich to see  
his bill through the senate—a coalition  
of the protection demands of the South  
and of the Republicans of the East and  
West against the Republicans of the  
Middle West.

## FOUND HIS WIFE DYING.

Mayfield, Ky.—While Chazley Culver  
sat in the Gen. Theater, witnessing the  
death scene in a moving picture, a friend  
hurried down the aisle and informed him  
that Mrs. Culver had just dropped dead.  
Culver was soon galloping toward his  
home, twelve miles east of here. Upon  
his arrival, shortly before midnight, he  
found his wife still alive, though in a  
dying condition. Mrs. Culver was poi-  
soned with poison oak.

Confagration at Commencement Ex-  
ercises of Central City School Re-  
sults in Four Deaths and Fatal In-  
jury to Three Others.

Central City, Ky.—Death mercifully  
relieved four of the little victims of the  
confagration at the commencement  
exercises of the music class of the  
Central City school from their ter-  
rible suffering, and it is believed that  
at least two more will join their little  
classmates in the last sleep. The dead  
are: Selma, 5; Dorothy, 7, daughters  
of Allen Clay, foreman of the Central  
City foundry; Louise, 12, daughter of  
Mrs. William Marshall and niece of  
Councilman William Heitsley; Nell, 5,  
daughter of F. E. McGary, manager of  
the Singer Sewing Machine Co. Fatal-  
ly burned: Grace McGary, 7, sister of  
Nell; Opal Broomfield, 6; Rena May  
Miller, 5, daughter of W. E. Miller,  
banker and merchant. As a result of  
the terrible panic and the injuries to  
pupils and parents, business was en-  
tirely suspended in the town. Physi-  
cians from surrounding towns were  
summoned and they were kept busy.  
The cause of the catastrophe was the  
candle held by little Nell McGary.  
Her sparklers went out and she drop-  
ped her candle in trying to relight it.  
As she stooped over her long curls  
caught fire and the flames soon spread  
to her clothing. In running about the  
stage in terror she soon set fire to the  
paper ornaments and the dresses of the  
other children.

## INSPECTOR THATCHER'S REPORT

Says Certain Officials Were Grossly  
Ignorant of the Law or Had Mer-  
cenary Motives.

Frankfort, Ky.—State Inspector M.  
H. Thatcher filed with Gov. Wilson a  
report of the investigation made by his  
department into the conduct of cer-  
tain officers in Campbell and Kenton  
counties and turned into the state  
treasury \$3,164.35 as a result of these  
investigations. The charge is made in  
the report relative to W. F. Lohstroh,  
M. J. Hogan and John P. Nagel that  
"these officers were either grossly ig-  
norant of the law or else intended by  
means of these erroneous and unlawful  
assessments and sales of property for  
taxes to receive from the state com-  
pensation to which they were not en-  
titled."

## SOUTHERN RAILROAD SUED

For Alleged Overcharges on Eight Dif-  
ferent Shipments of Whisky.

Louisville, Ky.—Alleging that large  
overcharges in freight rates in excess  
of the schedule filed with the Inter-  
state Commerce Commission have  
been imposed upon shippers by the  
Southern railroad in Kentucky, Julius  
Kessler sued to recover alleged over-  
charges on eight different shipments  
of whisky made in the last four years  
to points in the south. The largest  
claim among the number is \$175.21,  
an excess in freight said to have been  
levied by the Southern upon a ship-  
ment of 119 barrels of whisky sent to  
Los Angeles February 14, 1905. Six  
other similar claims are for small  
amounts.

## IMPERIAL COAL CO. PLANT

Partially Destroyed as a Result, it is  
Thought, of Employing Ne-  
gro Miners.

Jackson, Ky.—What is believed to  
have been an attempt to destroy the  
property of the Imperial Coal Co., at  
South Jackson, because of the employ-  
ment of negro miners to take the place  
of white men employed there, was par-  
tially carried out when a party of men  
exploded a quantity of dynamite,  
partially destroying the plant of the coal  
company. The boarding house occu-  
pied by the negro miners was fired  
upon and riddled with bullets, but no-  
body was injured.

Latonia, Ky.—Olanbala, carrying  
the sky-blue jacket and white sleeves  
of Johnny Greener, the popular Ten-  
nessee turfman, won the Latonia Der-  
by, with T. Rice in the saddle, over a  
track covered with water. The Peer  
finished second and Plate Glass third.

Lexington, Ky.—Jas. Lambert, who  
several months ago was arrested, in-  
carcerated, tried and acquitted on a  
charge of housebreaking, fled suit for  
\$10,000 against the W. L. Petty Co.,  
into whose tobacco stemmery and  
warehouse he was alleged to have en-  
tered.

Paducah, Ky.—The Ferguson &  
Palmer Co., lumber manufacturers of  
this city, closed a deal for 6,000 acres  
of timber land in Northern Mississippi.  
The purchase price is said to have  
been \$115,000. The tract contains 30,  
000,000 feet of oak and hickory.

Louisville, Ky.—Louisville capital-  
ists, headed by Col. Harry Weisinger,  
Muir Weisinger and Rush A. Wat-  
kins, have organized a company with a  
capital of \$50,000 and a surplus of \$25,  
000 to lease tobacco in the field  
against hailstorms.

# CAPITAL NOTES.

Will Not Interfere With Bookmaking.  
Gov. Wilson will not interfere with  
the operation of bookmaking on the  
Latonia track during the present meet-  
ing. The governor takes the position  
that the matter of interfering with the  
bookies or with the Latonia Agricul-  
tural association for permitting them  
in the betting shed is a duty of the  
judicial officers of the district in which  
the track is located, and that it is not  
up to him.

## Governor's Wife Taken to Hospital.

Gov. Wilson stated that Mrs. Wil-  
son was not recovering from the re-  
sults of the runaway accident, when  
her arm was broken, as he had hoped.  
The muscles and nerves of the wrist  
were injured by being crushed and  
Mrs. Wilson is suffering a great deal  
of pain. She has been moved to a hos-  
pital in Louisville.

it is valued at about \$75,000.

# AFTER SUFFERING ONE YEAR

Cured by Lydia E. Pink-  
ham's Vegetable Compound

Milwaukee, Wis.—"Lydia E. Pink-  
ham's Vegetable Compound has made  
me a well woman and I would like to  
tell the whole world of it. I suffered  
from female trouble and fearful pain in  
my back. I had the best doctors and  
they all decided that I had a tumor  
in addition to my female trouble, and  
advised an operation. Lydia E.  
Pinkham's Vegetable Compound made  
me a well woman and I have no more  
backache. I hope I can help others by  
telling them what Lydia E. Pinkham's  
Vegetable Compound has done for  
me."—MRS. EMMA LIME, 323 First St.,  
Milwaukee, Wis.

The above is only one of the thou-  
sands of grateful letters which are  
constantly being received by the  
Pinkham Medicine Company of Lynn,  
Mass., which prove beyond a doubt that  
Lydia E. Pinkham's Vegetable Com-  
pound, made from roots and herbs,  
actually does cure these obstinate dis-  
eases of women after all other means  
have failed, and that every such suf-  
fering woman owes it to herself to at  
least give Lydia E. Pinkham's Vegeta-  
ble Compound a trial before submit-  
ting to an operation, or giving up  
hope of recovery.

Mrs. Pinkham, of Lynn, Mass.,  
invites all sick women to write  
her for advice. She has guided  
thousands to health and her  
advice is free.
