## ORGANIC ACT CHANGES HAVE BEEN APPROVED PROHIBITION CANVASSER IS EXPOSED

### TAFT SIGNS ORGANIC ACT

**Amending Bill Is Now Law, Kuhio Cables From Washington**

"President signed land bill today, affects Kapa'a sales." Such was the text of a cable received by Governor Frenar this morning from Delegate Kuhio at Washington relating to the Organic Act. Asked in what way the new bill affected the Kapa'a sales Governor Frenar replied that under its provisions no tract of land of over forty acres could be sold to anyone without the consent of the land committee of six which is to be appointed by the Chief Executive.

matter will have to come before the committee of six. Had the sale been consummated prior to the signing of the bill all would have been well and no delay caused. Another important provision of the land bill is that land for sale must be advertised for sixty days instead of for thirty as has been customary under the old law. In the Governor's message to the Legislature, on November 2 last, the general provisions are summarized as follows: "The general nature of the bill is so well understood and its provisions (Continued on Page 4)

### OUR NAVY GUNNERS BEAT THE WORLD

CREW OF THE BATTLESHIP SOUTH CAROLINA.

NORFOLK, Va., May 27.—Officers and men of the navy are elated over the news published today of the world's record for marksmanship scored by the men of the battleship South Carolina. This battleship is one of the recent additions to the navy, and when taking part in the recent target practise made the record of the 12-inch guns of sixteen shots, all bulls' eyes, in four minutes and fifty-one seconds. This beats the world.

### TRUSTEES HAVE BEEN DESIGNATED

In order to issue \$15,000 bonds to build the new clubhouse on Hotel street, the University Club has turned over the property to Walter F. Frenar, S. B. Dole and A. S. Hartwell, as trustees under a mortgage. Bonds in the sum of \$15,000, which is needed for the work, have been issued, bearing 5 per cent. interest per annum, and all the property, leasehold and buildings now held or owned by the club as a corporation have been turned over to the trustees during the force of the mortgage deed of trust. The papers in the case were filed in the Bureau of Conveyances this morning, although the steps necessary for the work to be done were taken two months ago. The bonds mature in 1930, but may be taken up in whole or in part in 1920, their date of issue being March 1, 1910, and date of maturity March 1, 1930.

### AN INDIGNATION MEETING MOOTED

The calling of a public indignation meeting which would have to do with the consideration of a proper enforcement of the speed ordinances as it applies to automobilists and motor cyclists has been suggested. This was the sentiment expressed by the majority members of the board of supervisors last evening. The matter was brought to the fore through a report from the road committee relative to the extension of the speed ordinance to take in Asylum Road to Slaughter House lane. Should the meeting be called it is the intention to invite the general public to be present. It is then up to the long suffering citizen to come forward with a protest as well as suggestions toward the strict enforcement of the speed ordinances. Several supervisors are of the opinion that the enforcement of the law (Continued on Page 2)

### W. O. SMITH SPEAKS ON STORE RATE

**Declares Store Keepers Cry Before They Are Hurt**

The independent store men of the Territory are crying before they are hurt in the opinion of W. O. Smith of the Hawaiian Planters' Association. In the course of an explanation this morning on the action of the Association in agreeing that the plantation stores shall sell the staple articles of food and clothing at cost, Mr. Smith stated that the idea of injuring the independent store proprietor was farthest from the thoughts of the Association at the time in an effort to make concessions to the Russian immigrants. Mr. Smith stated that when the problem of plantation store charges was taken up for consideration it was done solely with the idea of considering the complaints of the Russians but that during the progress of the inquiry it developed that laborers of other nationalities were handicapped by the schedule of rates for staple articles. So the authorized change was not made exclusively for the benefit of the Russians. Mr. Smith stated further that he felt convinced that the independent store proprietors were not going to suffer under the change in the cost schedule authorized by the planters and believes that they will discover this to be so in the course of a short time.

### SAN GABRIEL IS BACK FROM HILO

The Portuguese cruiser San Gabriel has arrived from an extended visit to Hilo and other island ports. The vessel will now take on a quantity of coal sufficient to carry her to the Orient. Yokohama is the next port of call for the vessel. The officers and men report having enjoyed a fine time while away at the Hawaii metropolis. A ball and moving-picture show have been planned by the local Portuguese colony for the delectation of the visitors. The entertainment takes place tomorrow evening. The case against Charles Hubert, who is charged with dispensing booze under the cloak of ice cream, was sent over till tomorrow morning, Senator C. F. Chillingworth is defending the accused, who is now out on bond of \$100.

### NATIVE PAPER WARNS HAWAIIANS

A strong editorial warning the Hawaiians against the signing of Woolley's petitions is contained in the last issue of the Ka Mamalaha of Hilo. Comment is also made on the Woolley threat to go to Washington again if prohibition fails to carry at the plebiscite. The editorial is as follows: "Petitions are now being circulated among the Hawaiians asking that they sign their names, pledging themselves in favor of prohibition. 'The Hawaiians who have signed these petitions are giving away their privileges and the liberties of their native soil. "This paper wishes to consider the question impartially and to show the Hawaiian people where they are going against their interests by signing these petitions. Your privileges and liberties as citizens of the United States are in jeopardy. Aside from the opinion that this paper holds on the merits of prohibition, we desire to impress the Hawaiians that it is their duty to carefully consider the question before going on record. "You must ask this question of yourself: 'Is this true prohibition or prohibition only for one class of the people?' "The petitions that have been circulated are simply a bait to deceive you. If you sign these petitions and discover that you have been deceived in time to vote as you should, the petitions can then be used as a tool in Congress and would be pointed to as an indication that you are incompetent to govern yourself, with the threat of Federal prohibition and government by commission. "This paper does not wish to place the blame upon the Hawaiians who are circulating these petitions. They do not realize the importance of this question and have been deceived by Agent Woolley. To show his methods, we quote from the Bulletin of May 16: "Agent John G. Woolley, in the course of a speech made yesterday, stated that in the event of the failure of the prohibitionists to carry the plebiscite for prohibition, the work in Washington for Federal prohibition would go on. "The Hawaiians must realize that these petitions, even if signed under a misunderstanding, give Woolley a precious tool for his Washington work if the prohibitionists are defeated at the polls. He will state (Continued on Page 2)

### CONTEST DEPARTMENT OFEN TONIGHT

The contest department of the Bulletin will be open this evening from 7:30 to 9 o'clock. Readers of the Bulletin who have receipts, or who wish to pay their subscriptions in order to get votes and cannot get to the office during the day, will find this an opportunity to do so. Contestants who have a long list of subscriptions which they are holding to turn in on the last day will help to greatly lessen the congestion in the contest department by turning in the lists tonight. On the next to the last day of the Yosemite-California Contest the candidates and their friends are extending every energy they possess to gather up sufficient votes to secure the great summer trip. All the arrangements for the count tomorrow evening have been made. In addition to the count committee announced earlier in the week, Chas. Marques of the Office Supply Co. will aid the committee in summing up the totals with a Burrough's Adding Machine. All contestants and others interested in the outcome of the contest are invited to be present at the Bulletin office when the final count is made. Candidates should have at least one of their friends present to look after their interests during the final count. No one will be allowed to know how many votes each contestant receives as a result of the last subscription orders. The greatest care is being taken to keep secret the vote issue and no one can possibly know who has won until the committee finishes the count tomorrow evening. The result of the count will be announced in all the prominent amusement houses.

### DRY SOLICITORS USE DECEPTION

**Secure Hawaiian Names Under Pretense Of Census Enumerator**

What appears to be a deliberate plan at deception upon the Hawaiians of the city has been discovered in connection with the campaign that is being conducted by the advocates of prohibition. The zeal of some of the solicitors in the cause of prohibition has inspired them to attempt to secure the signatures of Hawaiians to the pledges of prohibition support under the statement of "it is official and must be signed," the Hawaiians not having a good command of English being led to believe and allowed to retain the impression that their signature has something to do with

additional census work, this being particularly effective because the enumerators have just been on their travels in all districts of the city. One of the specific cases that have developed is in connection with the appearance of a woman solicitor on School street. The Hawaiians state that this woman did not state directly that she was a census enumerator but refused to correct the impression when the Hawaiians assumed that she was, and allowed the impression to remain. This particular solicitor endeavored (Continued on Page 4)

### BUSINESS MEN SHOULD BE JAILED

**If Pupuhi Is, Lightfoot Says In Arguing To Quash indictment**

All the forenoon today was occupied by the arguments to quash the indictment against Sam Pupuhi, charged with gross cheat, whose case is before the criminal court on appeal. Attorney Lightfoot, in his argument, stated that Sam could not be criminally liable, but that perhaps a civil suit might be instigated against him. "If this indictment stands," he said, "then all the business men of Honolulu should be in jail. The history of this Territory is full of transactions like the one of Pupuhi. Fake, for example, the sale of certain plantation land on Hawaii which was bought for \$75,000 and was turned over to the plantation company for a million and a half. Those men were just as liable for cheat as is Pupuhi for buying an automobile for \$900 and selling the same for \$1350. "The clause under which Pupuhi is charged refers to 'one who obtains money or property from another under false pretenses, and though Sam may have lied in making his trade, that in itself is not a criminal offense.' Lightfoot said that as far as he knew, this was the first indictment for any transaction of the kind he knew of. "In the past people have not had the temerity to arrest a man for making a good horse trade," he continued. Assistant County Attorney Milverton, in arguing, made the point that Pupuhi had told the other man he knew where an automobile could be bought for \$1350, and that he would get it and sell it to him at that price. The motion to quash was overruled and the case set for hearing May 31.

### WANTED ONE VOTE, WHO'S THE MAN?

**Paving Proposition Is Knocked Out By Mayor's Veto**

Mayor Joseph J. Fern has, despite much pressure brought to bear upon him, vetoed the ordinance for the bitulithic pavement of Fort street, passed by a vote of four to three. The ordinance, which would authorize the expenditure of approximately \$17,000, was tossed in the air last evening, but afterward rescued by the faithful "four" who have stood by the proposition through supervisory sunshine and storm. The Warren Brothers of New York, represented by J. A. Gilman of this city, are at present no nearer the goal in the race for the much-coveted contract than when they first entered the lists and instigated the flood of oratory that has been going to waste in municipal halls. Mayor Fern's veto throws the ordinance back to its sponsors. It can not be taken up until five days have elapsed after the majority veto. It can not be considered after the expiration of thirty days following Fern's veto, but most important of all is that to make the ordinance a law, and place the contract for the paving of Fort street in the hands of the Warren Brothers, will require the vote of one additional member of the board of Supervisors. The boosters in the Warren camp declare that the paving proposition will go through. Then comes the burning question of the hour. Who will be the man to desert the anti-paving ranks and join forces with the four Supervisors who want to see Fort street covered with bitulithic paving? For the past six weeks, Members Ahia, Aylett and McClellan have maintained a solid front in opposing the proposition. During the same period, Supervisors Cox, Kane, Logan and Quinn have labored long and diligently for the success of their ordinance. The fight has been a spirited one. The three Supervisors who opposed the paving ordinance have never lost an opportunity of making a public declaration against the award of the contract to Warren Brothers. Ahia has insisted, even as late as last evening, that he was against the ordinance because "it was railroaded through the Board." He wanted to see money spent where

### SWEPT TO THEIR GRAVE

CALAIS, France, May 27.—Efforts to save the crew of the submarine Fluviose now seem without avail. Divers report that a current has swept the boat away and it can not be located. It is feared that it will now be impossible to reach the boat, and the crew will die of suffocation.
