

Old Furnaceman Found
Dead at Cornwall Furnace

Special to The Telegraph
Lebanon, Pa., May 2.—Joseph McAvoy, a former furnaceman of Cornwall, this county, was found dead this morning in an old shack within a stone's throw of Burd Coleman furnace, under most pathetic circumstances. In his younger days McAvoy worked steadily at the place, but about fifteen years ago he became too feeble to continue. Having a horror of the county almshouse, he took to the road as a tramp, and as such wandered over all parts of the American continent. Sickness finally overcame him and he then returned to his native heath. For two weeks past he lingered around Cornwall, subsisting on the remnants of workmen's dinner pails. This morning when one of the kind-hearted furnacemen went to the shack to leave some food for the old man he found him lying on the floor dead. Coroner John J. Light pronounced it a case of apoplexy.

COST OF PRISONERS'
KEEP UP TO COURT?

County and City Authorities Discuss Question of Nine Months' Bill

Whether or not the county is properly charging the city for the maintenance of prisoners who violate city ordinances may be threshed out in court. City and County Commissioners yesterday afternoon considered the question of amicable settling the dispute over the bill for maintenance during the last nine months of 1913. The county charged 32 1/2 cents per day per prisoner and its statement was for 9,800 days. The previous charge was 20 cents per prisoner and the city objected to the increase. The city authorities also contended that the county had charged for 600 more days than the city's audit showed.
City Solicitor Seltz contended that a two-day charge was made when a man was taken to prison one afternoon and discharged after breakfast the next day. Prison Inspector W. B. Meetch contended that any change from this would involve a greater expense to the city as the charge is based on the pro rata of the number of days. There was discussion here and there as to the need for a joint city hall and courthouse with provision for prisoners' detention, but the county officials insisted that the county is not in position financially to go into this yet. While it was said that the prison cost problem will likely be amicably settled by city and county legal advisers, it was intimated that the city

HELP SAVE THE
Republican Party
BY VOTING FOR
J. Benjamin Dimmick
Candidate for Nomination for U.S. Senator
AT THE
Primaries, May 19th

J. BENJAMIN DIMMICK

WHY I ENTERED THIS FIGHT

I recognize that the disastrous split in the Republican Party was the result of a Political System known over the whole country as PENROSEISM.
I am convinced that the Republican Party can and should be reunited.
But Senator Boies Penrose—THE MAN WHO WRECKED THE REPUBLICAN PARTY—should not and will not be trusted to reconstruct it!
I believe the people of Pennsylvania will support a real Republican who is opposed to PENROSEISM.
I believe in the great Republican principles—the principles that have been the basis of Republican success in the past.
I am a real Republican! I believe all the best features of the new progressive spirit ought to be incorporated in the Republican Party, and I offer my service to bring about this condition.
A Vote For Dimmick May 19th, Is a Vote Against Penrose and Boss Rule
