

WARRANTS ISSUED FOR 3 LEADERS IN KANSAS DISORDERS

[Republican A. P. Leased Wire] PITTSBURG, Kan., Dec. 15.—State warrants were issued tonight for three men, said to be responsible for disturbances in the Kansas coal fields, and will be served tomorrow. Attorney General Hopkins of Kansas announced. He arrived tonight and conferred with C. A. Burnett, county attorney, and then made his announcement. He added that additional warrants would be issued tomorrow.

PITTSBURG, Kan., Dec. 15.—Arrival of national guard troops today, the issuing of an order directing all "loyal union" men back to work and steps by authorities for the prosecution of women mob leaders were today's developments in the Kansas coal field. The district has been in a furor all week over activities of women strike sympathizers who sought to deter non-striking miners from working.

The guardsmen tonight had established camps in Franklin, Ringo and district by John L. Lewis, president of the International Mine Workers' union several months ago when he overturned the administration of Alexander Howa.

C. A. Burnett, county attorney, devoted himself to ascertaining what steps might be taken to prosecute leaders of the demonstrations. Tonight he was advised by the office of the attorney general at Topeka that he should begin immediately to arrest the leaders.

The proclamation issued by the representatives of the International union commended non-union strikers for "fortitude" and self-restraint, saying that the march of the women to the mines this week was a scheme to entrap the "loyal members into combat with the women, in order that the charge might then be brought that the adherents of the International union had attacked defenseless women.

It assured them that it was now safe to return to work and directed them to do so tomorrow. Crowds of idle miners watched the troops pitch camp at Franklin. Two or three women shrieked jibes at the soldiers, who ignored them. For the most part, however, the crowd was silent and grim.

At Ringo, the crowd of miners watching the soldiers was in general mood. The men who are idle do not appear to be suffering. Everyone looked well fed, including the children. Miners of unions working in seven mines late today voted to return to duty tomorrow. They were driven

away earlier in the week by women demonstrators. There was no intimation tonight of whether the women would attempt to resume their campaign tomorrow. Sitkiner said that stories that the women had thrown red pepper were erroneous.

Big Three Agree On American Navy Ratio

(Continued from Page One)

Sub Policy Unsettled The question of naval ratios for France and Italy naturally takes precedence over other naval matters still undetermined. Beyond it, however, problems of submarines, which Great Britain will raise as an issue of world naval policy, appropriation of aircraft carriers, tonnage, in which Japan has indicated an intense interest; determination of methods for scrapping 68 capital ships of the three powers, aggregating 1,561,543 tons; proportionate allowances for other auxiliary craft; decision as to limitation of merchant tonnage for war use, and other less important questions.

Apparently the decade naval holiday is settled, so far as the three major powers can determine it. Necessity for continuing some capital ship building for economic and engineering reasons was one of the first objections raised in British circles to the original American proposal. The announcement to the committee of fifteen said in that connection: "The naval holiday of ten years, with respect to capital ships, as originally proposed by the American government, is to be accepted except for permission to construct ships as above stated."

This was construed as meaning Great Britain's necessities with relation to tapering off in naval construction work rather than halting all construction sharply had been met through the addition of two new super-dreadnaughts.

BONAR LAW URGES ULSTER TO AGREE ON IRISH TREATY

LONDON, Dec. 15.—The event of the day in connection with the Irish settlement was the decision of Andrew Bonar Law, Unionist, former government leader in the house of commons and one of the strong men on the Ulster side, to accept the treaty, and if not to invite Ulster to come into the settlement, at all events to counsel acceptance of the boundary commission, which the Mar's of Londonderry, in the house of Lords, hinted Ulster might reject.

Mr. Bonar Law had been confidently relied upon by the "Die-Hards" to support Lord Carson, in opposing the treaty, or at the very least to remain neutral. His speech has taken much of the force out of the Carsonite attack and is considered to have insured ratification of the treaty.

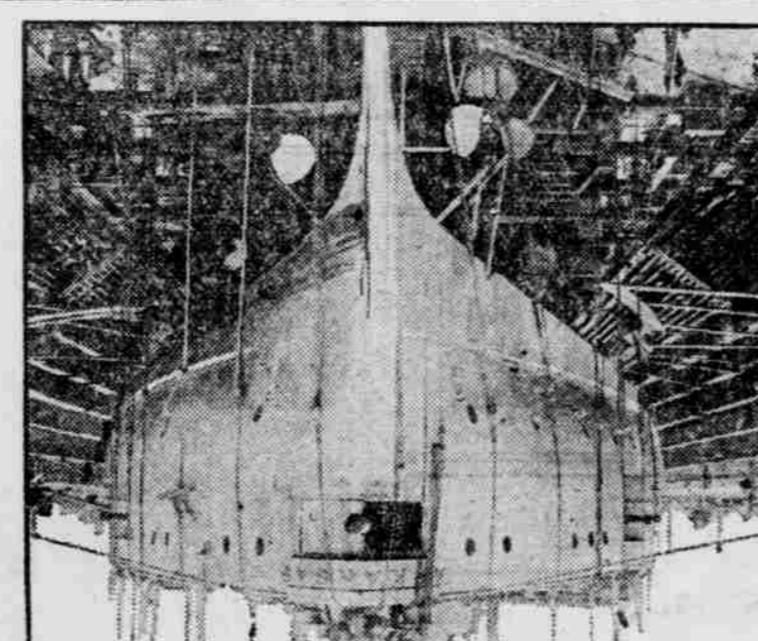

The vote is expected to be taken in both houses of parliament tomorrow afternoon, and the most important incident of tomorrow's debate is likely to be Lord Birkenhead's reply to Lord Carson.

Winston Spencer Churchill, secretary for the Colonies, and Herbert H. Asquith in the house of commons, warmly defended the treaty, the former premier, however, uttering a warning to beware of "the malignant genius hovering over all Irish affairs."

Viscount Bryce, in the House of Lords, admitted that the treaty was imperfect in form, but contended England was generous enough to try the experiment in responsibility of its own administration on Ireland.

When the commons adjourned, Austen Chamberlain, government leader, in reply to questions, admitted that it was undesirable that parliament should be prorogued before the decision of the decision at Dublin was known; therefore it might be necessary that the session be carried into next week. But he declined to admit that the house ought to wait for the Dublin decision before voting on the question of ratification. On the contrary, he thought the house ought to express its view without waiting for the Dublin decision and long as might be necessary.

The Dail is making little progress with Dublin. Sir James Craig's official rejection of the treaty has not now been published. In his letter the Ulster premier declares that all the government's pledges to Ulster have been violated, and that it came that Ulster will not be able to enter the Irish free state. He is coming to London, probably to probably to London, minister again, and it is possible that he had knowledge of Mr. Bonar Law's attitude.

HOW THEY WOULD SCRAP 'EM—If battleships are scrapped under the Hughes proposal, this is how it will be done. The U. S. S. Arkansas is partially dismantled while being overhauled at Philadelphia. To scrap the ship the dismantling process would be continued.

A DEATH-FILLED GAP—Two trains met head-on in this gap on the Philadelphia and Reading line at Woodmont, Pa. One locomotive leaped the loop. Cars were telescoped. Gas tanks exploded. More than 20 commuting residents of nearby towns were killed and 30 injured.

PROSECUTION RESTS IN TRIAL OF BURCH; ADJOURN TO MONDAY

[Republican A. P. Leased Wire] LOS ANGELES, Dec. 15.—The trial of Arthur C. Burch for the alleged murder of J. Belton Kennedy was adjourned late today until Monday morning, after the prosecution had rested, and defense attorneys announced that they had several motions to make and wished time to prepare them.

The court granted a request that the prosecution be granted the privilege of reopening its case later to examine a witness who has been ill. This witness, Mr. Keyes said, is Mrs. James W. Warren of Santa Barbara. Mrs. Warren is alleged to have traveled from Chicago to Los Angeles last July, about two weeks before Kennedy was shot.

The last point raised by the prosecution today was testimony checking on the distance traveled the night of the slaying by the automobile declared to have been rented by Burch on that occasion. Richard Parsons, owner of the car, testified early in the trial that a hub attachment for registering mileage showed the machine traveled 44 miles.

Recalled this afternoon, Parsons testified that he drove over the route declared by the prosecution to have been taken by Burch and that 44 miles was registered by the attachment. The trip today was from Los Angeles to a point on a beach road near Santa Monica and return, with two trips up a side road to Beverly Glen, where Kennedy was slain. The witness testified they saw Burch drive through the Glen both before and after the shooting, and two others testified they saw him on the beach road between the times fixed for his visits to the Glen.

HAS 200-MILE BEAM PARIS—The French government is planning what is said to be the largest lighthouse in the world for its international air service. It is to be built near Dijon and is equipped with eight lenses capable of throwing rays 200 miles.

Woman Masquerades As Man And Marries Unsuspecting Wife

[Republican A. P. Leased Wire] BOSTON, Dec. 15.—Ethel Kimball, the young woman who after her arrest yesterday as "James Hathaway," was discovered to have masqueraded as a man for two years, was arraigned in court today charged with the attempted larceny of an automobile.

Although it had been announced a change of clothing would be provided for her, she appeared wearing a man's hat and overcoat. She was ordered held in \$1000 bail for a hearing next Monday. Police investigation is alleged to have revealed that she was married Nov. 25. The wife, the police said, asserted she had never suspected her "husband" was a woman.

Mexican Customs Officer Arrested On "Dope" Charge

[Republican A. P. Leased Wire] EL PASO, Tex., Dec. 15.—Antonio Preciado, who said he was a Mexican customs inspector, was held in \$2,000 bail here today to await the action of the United States grand jury. Customs officers who searched Preciado at the international bridge testified they found two ounces of a forbidden drug concealed in his pockets.

Manager Of Grand Canyon Hotel Dies

[Republican A. P. Leased Wire] LOS ANGELES, Dec. 15.—Charles Brandt, for 15 years manager of a hotel at Grand Canyon, Ariz., died there Tuesday, aged 75 years, according to word received here last night. He was regarded as an authority on the Grand Canyon of the Colorado by many world travelers. Burial will be on the edge of the canyon and the remains of his wife, who died here nearly a year ago, will be removed from a Los Angeles cemetery and placed beside those of her husband.

Influenza Epidemic Raging In Coblenz; Many Soldiers Sick

[Republican A. P. Leased Wire] COBLENZ, Dec. 15.—Many of the American soldiers are in the hospital suffering from influenza, which is epidemic. There are at present 150 cases of the disease, which is of a moderate type. There is little pneumonia, and no deaths have occurred.

REED RESUMES ATTACK ON 4 POWER TREATY

[Republican A. P. Leased Wire] WASHINGTON, Dec. 15.—Another attack upon the four power Pacific treaty was made in the senate late today by Senator Reed, democrat of Missouri, who characterized it as a "gold brick" and an "American-Japanese alliance."

Mr. Reed also turned on the American naval reduction proposals which, coupled with the four power treaty, he declared made Great Britain "absolute master of the seven seas for ten years." The combination of the treaty and a reduced navy, he declared, was a "dangerous concession, going to the limit of prudence."

He described the 5-5-2 proposal as so generous to Great Britain that he could not but wonder whether it had not come from the British government itself. "America demonstrated during the war," he continued, "that she could heat the world. Had need be, she could have demonstrated that she could conquer the world. She has the wealth and population to eclipse all in the race for naval armaments."

Mr. Reed also turned on the American naval reduction proposals which, coupled with the four power treaty, he declared made Great Britain "absolute master of the seven seas for ten years." The combination of the treaty and a reduced navy, he declared, was a "dangerous concession, going to the limit of prudence."

changed a dozen shots with United States custom officers here early today. One prisoner was taken and a sack full of liquor captured. Other sacks were dropped into the river as the smugglers retreated to the Mexican side. Hundreds of people witnessed the shooting from the American side.
