**SCHOOL NOTES.**  
(Continued from Page 1)

**McDONOUGH No. 4.**

A regular meeting of the Co-operative Club was held Tuesday evening at 7:15. Final reports on the entertainment recently held were made.

The classes winning prizes for ticket selling were announced at this meeting.

The 7B Grade and their teacher, Miss C. Hughes, are to be commended for their fine work. This class brought in over \$50 for tickets.

Miss L. Averill's class 8B worked equally hard and captured second prize.

The Club is to be congratulated for their splendid work and spirit of helpfulness. Since organization many fine gifts, useful for both teachers and pupils, have been given to the school, the latest being the beautiful piano for the assembly room, and a fine set of tools for the Manual Training Department. It is hoped that more parents will join the Club during the New Year and help the earnest workers in a good cause.

Everyone enjoyed the songs by the little boys of Second Grade, who had morning exercises last week.

Faculty and pupils were glad to welcome Miss Poncet and Miss Lafargue, after an absence of several days, caused by illness.

**McDONOUGH No. 5.**

Mr. Dowling, Director of Physical Education, visited the school Monday.

Miss Powers, Supervisor of Speech Correction was at the school on Thursday and was well pleased with the remarkable improvement in the pupils who are given the training.

Mr. Dunaway gave a very interesting and instructive lesson to the children, using stereoscope and stereograph. We enjoyed it very much and hope very soon to be thoroughly equipped with the material.

Parents and friends of the school are invited to visit the school. An exhibit of work has been arranged and will be very interesting to patrons of the school.

Dr. Bohne, of the Department of Hygiene visited the school Tuesday.

**BELLEVILLE SCHOOL.**

The paper party on Friday was a great success. The children enjoyed

the coaster as well as many games and dancing. Some light refreshments were served. The paper will be sold to buy records.

Miss S. Powers was a visitor in the interest of speech correction, and was pleased with the work she found in the school.

The Anti-Tuberculosis League's stamps are being sold to the public schools. Belleville school has had 8,000 assigned as her portion. The Lorraine crosses are expected to arrive soon for those who have purchased 100 stamps.

In the spelling match between the 7th A and 7th B, the average of the 7th A was 88.9-11, and of the 7th B, 72.03.

**The Wonders of America**

By T. T. MAXEY

**BUNKER HILL MONUMENT.**

THE elevation known as "Bunker Hill" is situated in Charlestown, Boston harbor. On this spot, on June 17, 1775, was fought the famous Battle of Bunker Hill, between the British and American forces. Here the gratitude and patriotism of the American people have caused to be erected a great granite obelisk as a memorial.

Located in the center of a four-acre square and surrounded by an iron fence, this monument is 221 feet high and 30 feet in diameter at the base. Within the shaft is a circular stairway leading to a chamber, 11 feet in diameter and 17 feet high, at the top, from which is visible a view that thrills the heart of every American, who has been fortunate enough to witness it.

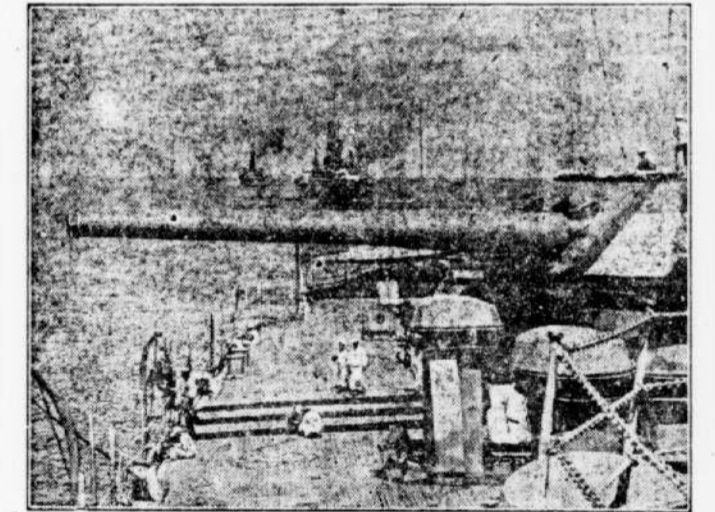

It is an interesting fact that the corner stone was laid by General LaFayette, a son of glorious France, during his famous visit to America in 1825. The monument was dedicated in 1842, on which occasion Daniel Webster spoke these famous words: "It looks, it speaks, it acts, to the full comprehension of every American mind, and the awakening of glowing enthusiasm in every American heart. Its silent but awful utterance; its deep pathos, as it brings to our contemplation the 17th of June, 1775, and the consequences which have resulted to us, to our country, and to the world, from the events of that day, and which we know must continue to rain influence to the destinies of mankind to the end of time."

**FRIENDS**

I used to watch for Santa Claus  
With childish faith sublime,  
And listen in the snowy night  
To hear his sleigh-bells chime.  
To hear his sleigh-bells chime.  
To hear his sleigh-bells chime.  
To hear his sleigh-bells chime.  
To hear his sleigh-bells chime.

If children of a larger growth  
Could have a Christmas tree  
From Father Time, one gift alone  
Would be enough for me—  
Let others take the gems and gold,  
And trifles light and vain,  
But give me back my old belief  
In Santa Claus again!

When you can look out over the stern of a big dreadnaught and see a line of regular he-ships following in battle formation, you just can't help swelling up and letting out a couple of man-sized roars.

A fair sea, a good breeze, and a line of battleships making fifteen to twenty knots, present the most inspiring sight any man can ask on this earth.

Living with such experiences turns boys into men, gives them a grip on life, makes real stuff of them. They work hard, they play hard, and we know that, if necessary, they can fight hard.

Learn about your wonderful Navy. Be proud of it. It is respected by every country in the world. And it is yours; every bit your Navy.

**Readings by the Author**

**1,500,000 POLISH CHILDREN SICK.**

One million five hundred thousand children in Poland today need medical attention. Their condition has been caused by hunger and want. To save them the European Relief Council is appealing to the people of the United States for \$2,000,000 to carry on relief work in stricken Europe.

Some of these days there will be a lexicon that will define "court" as "a tribunal in government especially designed to invest the release of murderers with ceremonious dignity, circumstance and expense."

Conditions are such that it rapidly is becoming the high cost of existing.

Though it can scarcely be said that prices are falling, they are descending.

In view of the demand it is surprising that there has been no shortage of raisins.
