

WELCOME!

THE PACIFIC FLEET LYING AT ANCHOR AWAITING REVIEW

In grateful recognition of your gallant services during the great world war in defense of American ideals, we welcome you!

Your coming marks an epoch in the history of our city, and assures America's Western shores naval protection equal to that guaranteed the Atlantic seaboard.

The Skinner & Eddy Corporation is vitally interested in all that pertains to the welfare and growth of Seattle. Every launching and completion of a huge steel vessel from the ways of our plant has sounded a clarion heralding throughout all the world Seattle's fame!

With intense enthusiasm we extend our warmest welcome to the Officers and Men of the Pacific Fleet, to Secretary Daniels and to our President, Woodrow Wilson.
