3 SEA TERRORS
FOR UNCLE SAM

Adder, Moseoan and Grampus, the New Submarine Boats, are among the most powerful in the world. They are equipped with new and improved equipment for navigating and fighting. The Adder is powered by electric motors, while the Moseoan and Grampus are powered by steam. They are equipped with torpedoes and have a speed of 20 knots. The Adder is armed with four 12-inch guns, while the Moseoan and Grampus are armed with six 15-inch guns. They are also equipped with anti-aircraft guns and machine guns. The Adder and Moseoan are 350 feet long and 35 feet wide, while Grampus is 300 feet long and 25 feet wide.
