ELECTRIC SHOCK IN PUDDLE KILLS THREE PERSONS

LOS ANGELES, March 25—(AP)—A 55-year-old woman, the main victim, and a 20-year-old man and a 14-year-old teenage girl were electrocuted when a puddle of water in which the woman had been standing caused a 5,000-volt current to pass through the wires carrying 5,000 volts of electricity.

The woman was standing in a puddle of water, which had been formed by a broken water main, when the current struck her. The man and girl, who were in the same puddle, were also electrocuted.

The woman died instantly, and the man and girl were rushed to the hospital.

GREAT WAR TEACHES WORLD TEMPERANCE

By Herbert Quick

War is just now teaching the Western world a lesson in temperance, for the first time in history.

The great conflict has revealed the folly of intemperance and the wisdom of self-control.

The unbridled passions of men and women are the bane of civilization, and the best way to prevent war is to teach the world to temperance.
