BYRON R. NEWTON EXPECTED TO MAKE PROPOSALS ON FEDERAL SITE

Assistant Secretary of Treasury Reaches Washington Favoring Inland-Location

By C. B. ALBERT

FRANKFORT, Ky, October 11—A strong argument in favor of a Federal building on the Inland site for the Treasury Department was presented here today by Assistant Secretary of the Treasury, Byron R. Newton, in a speech on the subject of the location of the Department's main headquarters.

In his speech, Mr. Newton stated that the Treasury Department is the largest in the world and has a broad national mission and that it is therefore necessary that it be located in a site which will give it the best possible advantage for service to the nation.

He also pointed out that the Inland site is the most suitable for the purpose of the Department, as it is located in the heart of the country and is well supplied with water and power, and is also conveniently located near the railroad lines.

The Treasury Department is now located in Washington, D.C., but Mr. Newton stated that it is being considered for transfer to the Inland site, and that it is expected that the decision on the matter will be made within the next few months.

MEN ON O'BOATS AND ON MANHOLE WHO SCARED WHITENER GUEST

Always Requests K. R. Lewis of the Lewis Brothers, who has been working in the Vaile valley for the past three years, has been received by the new manager of the Lewis Brothers in the Vaile valley.

He has been working there for the past three years and has been very successful in the work. He is now in charge of the Vaile valley and has been received by the new manager of the Lewis Brothers in the Vaile valley.
