## 67,000 Cars Behind Orders

The Ford Motor Company is at present 67,000 cars behind orders for IMMEDIATE SHIPMENT. We are out of cars and the only way we can get one is to send in the SIGNED ORDER of the CUSTOMER and then they will deliver the car to us. This condition has never been known before at this time in the year, and if they are behind NOW, what will it be NEXT SPRING? The European war is causing a shortage in material and we advise all prospective purchasers to place their orders now for either immediate delivery or delivery next spring. If you wait you are sure to be disappointed in delivery.
