PRICE FIVE CENTS

AWAITING RESULT OF CARPATHIAN FIGHTING

ARMIES ALONG WESTERN FRONT WATCHING OUT-COME BEFORE STRIKING TELLING BLOW

RUSSIANS DOING ALL THE FIGHTING

Negotiations Between Austria and Italy Suspended—Rumania Contemplating Immediate Action

LONDON, March 26.—Military circles here believe the comparative inactivity along the western front means the armies are awaiting the result of the Carpathian fighting before attempting to strike a telling blow.

The British are resting on the Neuve Chapelle victory, which cost them nearly as many men as the Germans lost.

The Germans are reported to be preparing a fresh offensive. They have undertaken nothing comparable to last fall's rush. Some observers say the Przemysl' fall will not immediately influence the warfare in the Carpathians.

The British press claims that Austria's right wing has been turned and that Carnowitz evacuation is imminent. Germany is reported to be sending vast reinforcements to the Carpathians. This, therefore, indicates that the Carpathian battle is influencing the German campaigns in the East and West.

Unofficial reports by way of Bucharest credit the Russians with a great victory at Uzek, while Petrograd officially claims an important success in the capture of fortified positions near Lyukow Pass. These formidable positions were taken by storm, the Austrians losing machine guns and more than 500 prisoners.

Unofficial reports also credit the Russian army with further successes at Bukovina. Vienna admits an important Russian offensive in mountain passes, but declares fierce attacks in these positions have been repulsed.

Politically, no decisive move has been made to increase the number of combatants, but it freely rumored all negotiations between Austria and Italy have been suspended.

Rumania is also said to be contemplating immediate action on the side of the Allies.

Rumors continue that Italy is about to enter the war. Austro-German troops are massing on the Italian frontier. These are not substantiated.

The Dardanelles situation is unchanged.

The admiralty has not confirmed the report that British battleships have entered the straits.

It is reported that German officers are leaving Constantinople. The situation there is gloomy.

There is nothing official showing that the Turks are discouraged.

Dutch papers protest against the sinking of the Dutch steamer Meden by a German submarine off Beachy-head.

The sinking of the steamer has caused much uneasiness in Holland, where the people are already irritated by the German capture of two Dutch merchantmen.

GERMAN CRUISER BEING REPAIRED

Rumors That Prinz Eitel Friedrich is Preparing to Depart Apparently Untrue

WASHINGTON, March 26.—It was rumored here tonight from Newport News that the German cruiser Prinz Eitel Friedrich, docked for repairs, is preparing to depart. The rumors are apparently untrue. The cruiser is at the dock tonight and is still being repaired.

Government officials refuse to discuss the time when the cruiser is repaired. She has been at Newport News for seventeen days. Mystery has surrounded the ship's repairs, but it is understood that the naval board which inspected her, thought two weeks sufficient.

AEROPLANE SEEN OVER PANAMA CANAL LOCKS

PANAMA, March 26.—Military and canal officials are investigating a report that a lock guard officer's report that aeroplanes have been seen over Pedro Miguel Miraflores locks, Canal Zone.

General Goodwin and Commander General Brown, military commander, detailed men to make a thorough search for the aeroplanes reported seen and heard over locks last night. Machines also were reported flying over hill fifteen, which is heavily entrenched, located east of the Pedro Miguel locks, forming part of the locks defense. It is known that a biplane is owned on the Isthmus, but its present location is not known.

WARLIKE ACTIVITY AT NEWPORT NEWS

Troops Suddenly Ordered to Quarters—Engines Around Coast Guns Start

NEWPORT NEWS, March 26.—Fortress Monroe and Fort Wool tonight assumed an atmosphere of warlike activity. Fort Wool is in the center of Hampton Roads. Troops were suddenly ordered to quarters. Big gun crews and nine companies were sent to stations. Engines around the coast guns started and searchlights put in operation. A United States submarine and three destroyers were anchored between the forts. Searchlights are being played on the harbor entrances of all shipping. At ten thirty the German cruiser Prinz Eitel Friedrich was still moored at the pier where she has been repairing. One of her officers said she would not leave tonight, but "some other night." Smoke was rising from one of the Eitel's funnels.

Suspected Kidnapper Will Be Released

WAYNESBORO, Ga., March 26.—Mrs. Jane Redd, arrested here yesterday suspected of kidnapping Robert Allen Striker, son of Mrs. William H. Richter, of Brooklyn, will be released tomorrow, was announced by the sheriff tonight. The sheriff is satisfied that the child recently brought here by the woman is not the Striker boy.

Note to Great Britain and France Completed

WASHINGTON, March 26.—President Wilson and his advisors today completed the United States' note to Great Britain and France regarding the blockade of commerce with Germany. They continued its consideration tonight. Probably the note will not be dispatched until late tomorrow. Secretary Bryan refused to intimate the notes' character. He said merely it had not been sent.

Air Raid on Metz.

BERLIN, March 26.—The official statement tonight said several hostile airmen dropped bombs on the southern part of Metz today. They were driven off by German artillery. Three German soldiers were killed. No material damage was done.

Typhus Epidemic in Serbia.

NEW YORK, March 26.—Henry James, Jr., of the relief commission of the Rockefeller Foundation arrived tonight from Liverpool. He said Serbia is in the grip of a typhus epidemic, the most violent of modern times.

AMERICAN SUBMARINE IN 300 FEET OF WATER

Naval Officials Abandon Hope for the Lives of the Men Aboard

HONOLULU, March 26.—The American submarine F-4 which failed to reappear when submerged yesterday morning was discovered today in 300 feet of water.

It was discovered that it would be impossible to tow the submarine into shallower water. It was then decided to bring the marine craft from the Honolulu naval station and raise the vessel.

No Hope For Crew.

WASHINGTON, March 26.—Naval officials tonight abandoned hope for the lives of men aboard the American submarine F-4. The vessel is designed to resist water pressure at 300 feet depth, but it is not thought she could remain that deep safely for any length of time.

World's Greatest Submarine Will Belong to Uncle Sam.

Here is the designers' view of the greatest submarine the navies of the world have yet known, and it will be the property of Uncle Sam when it is finished in two years. Besides it the German submarines used in the present war pale into insignificance, and those being constructed in the yards at Kiel are of little consequence.

She will be named the Schley, after the hero of Santiago.

The contract has just been let and the Schley will be ready for action within twenty-two months. The Schley, which will be classified as a "seagoing submarine," will have the power to enable her to accompany the Atlantic fleet.

STILL CONSIDERING ENGINEER MATTER

PAVING BOARD HAS MADE NO DECISION AS TO CONSULTING ENGINEER

MEET MONDAY

When Further Propositions Will Be Received on This Question

A meeting of the street paving commission to receive propositions from engineers for service as consulting engineer during the laying of street paving in Anderson was held yesterday morning at 9 o'clock in the office of Chairman E. R. Horton. Gilbert C. White, of Charlotte, and the Davidson Engineering company, of Savannah, were the only bidders on the proposition, and while the proposition of neither was accepted they were not rejected. The commission postponed action on the matter and appointed Messrs. Horton and D. A. Ledbetter a committee to confer further with the engineers and obtain the very best propositions possible, and report back at a meeting of the commission scheduled for next Monday night at 8 o'clock.

In the meantime Resident Engineer Sanders is to proceed with the work of preparing plans and profiles and to the architects, which will be used in plans and specifications to be turned over to prospective bidders on the paving work.

At the meeting of the commission Mr. Ernest F. Cochran, who is serving as attorney for the commission during the illness of the regular attorney, Mr. G. Cullen Sullivan, announced that the bonds which the city is to sell next Wednesday will be exempt from all taxation. A law passed by a recent session of the legislature makes municipal bonds exempt from municipal, county and State taxes. Under the federal laws these bonds are exempt from federal income tax. This fact is of great importance and will have material effect on the sale of the bonds.

Efforts to Pacify Completely Fails

ROME, March 26.—Efforts of Prince Von Buolow, German ambassador toward an agreement between Italy and Austria regarding the cession of territory to Italy, have definitely failed, according to the Associated Press. The paper says a informant that when last the courier from Vienna brought to the ambassador the Austrians' final terms they were of such a nature that he did not consider it worth while to submit them to the Italian foreign office here. It is reported that Von Buolow then resigned the role of mediator.

Naval experts say that the Schley will be the largest and most terrible engine of warfare in her class that ever has been constructed.

The type of submarine which is now being used with great effect by the warring navies carries crews of twelve and fifteen men. The Schley will need thirty men to handle her.

The design of the Schley is revolutionary in submarine construction. Her upturned bow resembles an old-fashioned torpedo destroyer rather than a diving submarine.

The first submarine in the world able to cross the ocean, naval experts say, will be the Schley. She is being built at Groton, Conn., by the Electric Boat Company, at a cost of \$1,350,000.

ENCAMPMENT WAS A GREAT SUCCESS

VISIT OF CLEMSON CADETS A PLEASURE FOR BOTH THEMSELVES AND ANDERSONIANS

REVIEW OF WEEK BRIEFLY TOLD

From the Time the Cadets Arrived Until Their Departure They Saw One Round of Gay and Wholesome Amusements

Tired but happy and enthusiastic in their praise of Anderson hospitality, the Clemson College cadet corps, over 700 strong, who came to Anderson last Monday afternoon for a week's encampment, departed late Friday afternoon on a special train on their return to routine of college life.

A large number of citizens were present when the cadets, entrained, conspicuous among those there to bid farewell to the "boys" being scores of young ladies, who, after all, contributed to the enjoyment of the encampment for the cadets as a whole than any others.

It was the first time that Anderson had seen an encampment of the Clemson cadet corps in some eight years, and citizens generally showed their appreciation of the authorities having selected the "Electric City" for the encampment by giving a number of entertainments for the cadets and officers of the institution. Besides the benefit of the encampment, the stay of the 700 young men in the city for a week was of inestimable value in strengthening the strong bond of friendship which has always bound Anderson county and Clemson College together.

Review of Week.

Leaving Clemson College last Monday noon, the cadets proceeded afoot to Sandy Springs, where they entrained on a special for Anderson. Upon their arrival in Anderson late that afternoon, they were met by a large reception committee of representative citizens and given the "glad hand." The camp had been prepared in advance for their coming, the cadets marched immediately to "Camp Riggs," christened in honor of the talented and popular president of Clemson College, where they made ready for the first night of camp life.

The remainder of the week was one continuous round of camp duties, intermingled with recreation of a nature most pleasing.

Among the events of the week was a visit to several of the electrical sub-stations of the Southern Public Utilities company by the Junior and Senior students of the electrical department. Tuesday evening the cadets

Left for the city for a week's encampment, the stay of the 700 young men in the city for a week was of inestimable value in strengthening the strong bond of friendship which has always bound Anderson county and Clemson College together.

Grandson For Emperor.

LONDON, March 26.—The Duchess of Brunswick, formerly Princess Victoria Louise, daughter of Emperor William, gave birth to a son yesterday, according to a Reuter dispatch from Brunswick.

French General Killed.

PARIS, March 26.—Gen. Rene Joseph de Larue, chief of a division of the French army, has been killed. He was struck in the head by a bullet while inspecting a trench.

Trying to Protect Americans.

WASHINGTON, March 26.—The state department today made a further effort to obtain protection for American missionaries and refugees near Urumich, Persia, where the Kurds are threatening a general Christian massacre.

The craft will have a length of 265 feet over all, speed of 20 knots an hour, a displacement of 1,100 tons at the surface, and a cruising radius of 7,000 miles. This will take her to Europe and back again without replenishing coal.

Under water the Schley, it is calculated, can go twelve nautical miles an hour. She is expected to accompany the Atlantic fleet anywhere it goes, her Diesel oil engines developing 4,000 horsepower.

The oil engine, using internal combustion, will enable her to dive instantly, whereas, if her engines were of the ordinary steam type, it would take her about half an hour to prepare to dive. There will be freeboard enough to make the craft seaworthy under any weather conditions.

In addition to the usual conning tower, there will be an elevated bridge. The battery for use at the surface, is to consist of several machine guns and guns of small calibre. The torpedo tubes will be ten in number, so arranged as to discharge torpedoes at any angle without having to manoeuvre the craft into any particular position.

The largest submarine now building in Europe is for the British, and is not over 200 feet in length, it is stated.

The big German submarines have about 800 tons displacement, a cruising radius of 2,000 miles and a speed of eighteen knots at the surface and seven knots submerged.

The Schley's torpedoes, the designers say, will penetrate anything afloat.

TAX PAYING TIME TO EXPIRE WEDNESDAY

DELINQUENTS WILL PAY A PENALTY OF FIVE PER CENT. AFTER PAYING UP WELL

About 60 Per Cent. of the Total Amount of Taxes Due Has Been Taken In

UNDECIDED AS TO TEST CASE

Attorney General Says Officers Have No Right to Examine Carriers' Records

COLUMBIA, March 26.—Whether there will be any test case of the "gallon-a-month act" following the opinion of Attorney General Peeples, here, that peace officers have no right to examine records of transportation companies and that a man may transport a legal amount of liquor to his home without having it confiscated, will be unable to be determined here tonight.

ITALY PREPARED TO ENTER THE STRIFE

ROME, March 26.—A royal decree has been promulgated extending prohibition of exports to include all metals, sulphate, aluminum, cement, steel, barium, ceresin and all materials for tanning. Italy on February 8, prohibited the exportation all foodstuffs except fruit, vegetables, milk and butter.

Grandson For Emperor.

LONDON, March 26.—The Duchess of Brunswick, formerly Princess Victoria Louise, daughter of Emperor William, gave birth to a son yesterday, according to a Reuter dispatch from Brunswick.

DISASTROUS FIRE AT PROSPERITY

TWENTY-TWO STORES, RESIDENCES AND OTHER BUILDING DESTROYED

FIRE STARTS IN BOX CARS

Supposed to Have Originated From Spark From a Locomotive

Special to The Intelligencer.

PROSPERITY, March 26.—The town of Prosperity was visited early this afternoon by a disastrous fire which wiped out a large section of the business district and entailed a loss of several thousands of dollars.

Twenty-two store rooms, residences and other buildings were wiped out by the conflagration. The fire started at 12:30 o'clock in three freight cars on the Columbia, Newberry & Laurens Railroad tracks, near the depot, and two solid carloads of guano were destroyed to begin with.

The fire is supposed to have originated from a spark from a locomotive. The blaze raged for two or three hours. With only a bucket brigade with which to check the flames, the progress of the flames met with little check.

Among the property lost was the following:

W. H. Moseley, residence, valued at \$5,000; insurance of \$3,500.

W. L. Mathis, grocery store, total loss.

E. A. Counts, grocery store and undertaking establishment, total loss.

W. L. Dominick, grocery store, badly damaged.

O. W. Apick, shoe shop, total loss.

F. E. Duncan three vacant store rooms.

Walter Morris, grocery store.

W. J. Mitchell, grocery store.

Prosperity garage.

N. Gauts shoe shop.

Prosperity Dressing club.

A. J. Wise, vacant dwelling with 400 bushels cotton seed.

Other minor buildings.

President Wilson Will Lay Cornerstone

WASHINGTON, March 26.—President Wilson will lay the cornerstone tomorrow of the American Red Cross permanent home here. Former President Taft will be the principal speaker. Mabel Boardman are to be a memorial to the women of the Civil War. It will be erected through a few subscriptions congressional appropriations.

WAR HAS NOT MADE PRICES HIGH

Agents of the Department of Justice Find That There Has Been No Conspiracy

WASHINGTON, March 26.—There has been no conspiracy in the United States to increase the price of food on account of the European war. This is the opinion reached by agents of the department of justice who have made a thorough investigation into the cause of high prices. Their formal report was filed today.

SMITH FOUND DEAD IN HIS OFFICE

ALBANY, Ga., March 26.—Samuel W. Smith, ordinary of Dougherty county, and also a lawyer and real estate dealer was found dead in the vault at his office in the courthouse here early today with a shotgun wound in his breast. Authorities believe that he committed suicide as a result of despondency caused by ill health. Smith was about 55 years old, and unmarried. He was a son of the late Congressman Wm. E. Smith.

Amends "Seven Sisters."

PAUL KELLEY SHOTS AND FATTALLY INJURES FATHER

Special to The Intelligencer.

SENECA, March 26.—Joseph B. Kelley who lives with his son on the Ramsey place on Knoves river, was shot and perhaps fatally injured by his son Paul Kelley. One of the physicians attending him is quoted as saying that the chances are against Kelley's recovery.

The older Kelley makes his home with his son and Monday the young man was away all day. On his return at night he found his wife sitting by the fire sobbing. She said her father-in-law had been abusing her all day. He asked his father for an explanation of his conduct toward his wife, whereupon, the old man is said to have made for his gun, but the young man was the quicker, and got his first and used it with telling effect.

The father is said to have made a sworn statement exonerating his son from any blame in the matter, saying that if his son had not had shot him, he would have killed his son.
