

For more than Forty Years Cotton Growers have known that POTASH PAYS

More than 11,651,200 Tons of Potash Salts have been imported and used in the United States in the 20 years previous to January, 1915, when shipments ceased. Of this 6,460,700 Tons consisted of

KAINIT

which the cotton grower knew was both a plant food and a preventive of blight and rust,—with it came also 1,312,400 Tons of

20 per cent MANURE SALT

which has the same effects on Cotton, but which was used mainly in mixed fertilizers.

Shipments of both Kainit and Manure Salt have been resumed but the shortage of coal and cars and high freight rates make it more desirable to ship Manure Salt, which contains 20 per cent of actual Potash, instead of Kainit, which contains less than 13 per cent actual Potash.

MANURE SALT can be used as a side dressing on Cotton in just the same way as Kainit and will give the same results. Where you used 100 pounds of Kainit, you need to use but 62 pounds of Manure Salt, or 100 pounds of Manure Salt go as far as 161 pounds of Kainit.

MANURE SALT has been coming forward in considerable amounts and cotton growers, who cannot secure Kainit, should make an effort to get Manure Salt for side dressing to aid in making a big Cotton Crop.

Muriate of Potash

50 per cent actual Potash, has been coming forward also,—100 pounds of Muriate are equivalent to 400 pounds of Kainit or 250 pounds of Manure Salt.

These are the three Standard GERMAN Potash Salts that were always used in making cotton fertilizers and have been used for all these years with great profit and without any damage to the crop.

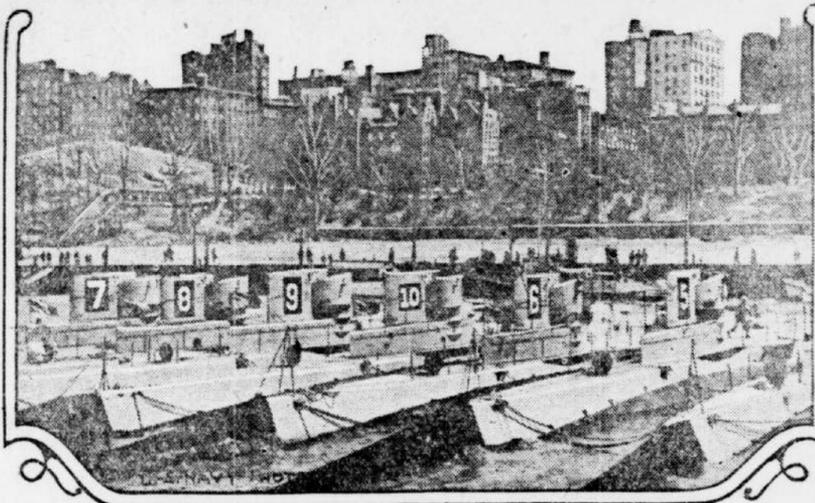

The supply is not at present as large as in former years, but there is enough to greatly increase the Cotton Crop if you insist on your dealer making the necessary effort to get it for you.

American Submarines at Rest After Long Cruise

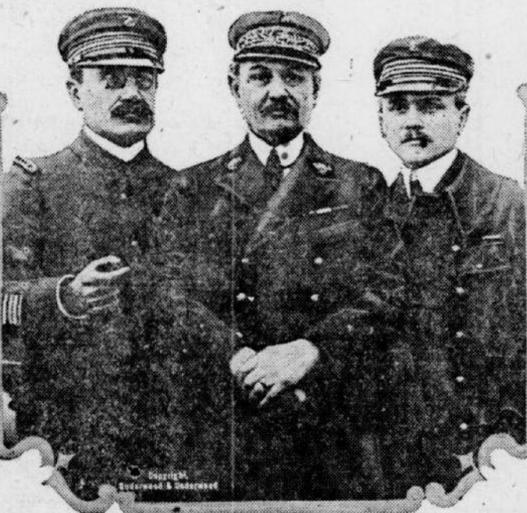

Some of Uncle Sam's undersea craft tied up at an anchorage in the Hudson river. These subs accompanied the Atlantic fleet from Cuban waters.

Regent of Hungary With the Entente Mission

Admiral Von Horthy, the regent of Hungary, discussing the peace situation with the emissaries of the entente mission in Debrecen. The admiral is seen on the extreme left of the photograph in the foreground.

French Naval Engineers Arrive

This French naval and artillery ordnance mission, composed of famous naval engineers, arrived in New York the other day for a tour of the United States ordnance and industrial centers.

DR. RUSSELL H. CONWELL

Dr. Russell H. Conwell, famous lecturer, preacher and founder of Temple University, Philadelphia, breaking ground for an extension to the university. All of his earnings from lecturing and preaching, about \$4,000,000, have been given by him for aiding the education of young men and women.

OFF FOR A LONG JAUNT

Ray Wilson, a young athlete of the U. S. Marine corps, photographed at the start of his jaunt across the United States, with letters to governors of all states through which he will pass. Mayor Caldwell of Seattle is handing Wilson the first letter to deliver.

Avocado Rich in Fat.
The avocado or alligator pear contains as much nutritious fat as does ordinary cream, sometimes as high as 20 per cent. As it contains little starch or sugar, it might prove valuable in the diet of diabetics if it did not cost so much.

Intelligent Doing.
A man in proportion as he is intelligent, makes a given force accomplish a greater task, makes skill take the place of muscles, and with less labor gives a better product.—*Channing*

Indians' First View of an Airplane

These Indians at the 300th anniversary of the Hudson Bay company at Fort Garry, near Winnipeg, Canada, are seeing an airplane for the first time. The Indians are from Canada's Great Northwest. The plane brought mail to Fort Garry from the United States.

MUCH IN LITTLE

A tool has been invented for prying the lids from egg crates without breaking the wood.

Surrounding an indirect lighting fixture that has been patented is a receptacle to hold growing plants.

The surface of the earth in one geographical mile "falls away" or departs from a straight line 8.04 inches.

A coin in a slot device has been invented for checking hats, coats and umbrellas in public places.

For saleswomen and office workers an adding machine that resembles and is worn as a bracelet has been patented.

This year is the centenary of the discovery of quinine, of which more has been used in the world than any other drug.

An English poultryman is the designer of a motorcycle side car in which a large number of eggs can be safely transported.

Six varieties of seaweed are used by the Japanese in the manufacture of vegetable isinglass.

Railroads in Italy are experimenting with lignite, peat and the latter mixed with other substances as locomotive fuel.

A pneumatic cushion which can be inflated with an automobile tire pump has been invented for use with beach chairs.

Silk sausage casings, coated with a chemical preparation that makes them elastic, are a German invention.

A back for railroad car seats invented by a Florida man unfolds and forms two writing desks, one in each side.

Camphorated oil is made by dissolving camphor, by heat, in olive oil. Two ounces of camphor is sufficient for a pint of oil.

Mrs. Emmeline Pankhurst of England, declares that the chief work confronting women today is the suppression of bolshevism.

WAITER ALLOWED FOR COBB

Booth Tarkington's Amusing Illustration of Student Life in Munich Before the War.

"Munich before the war," said Booth Tarkington, the famous novelist, "was an earthly paradise. For ten cents in a Munich beer garden you would get a quart mug of ambrosia beer and a brace of incomparable frankfurters—a meal which you would consume to the music of Wagner and Beethoven, played by a vast and magnificent orchestra."

"Of course, in Munich the art students—poor fools—sometimes drank too much. They tell a story there about a Missouri student."

"Another large beer and two frankfurters for Student Cobb of Missouri," a Munich waiter sang out one night.

"Only give Student Cobb one frankfurter," said the manager of the garden. "Student Cobb sees everything double."

"I've already attended to that," said the waiter. Cobb ordered four frankfurters."

Agricultural Missionaries.
To heighten agricultural production the world over and thus increase the world's food supply, with the resultant blows at old H. C. of L., an international association of agricultural missions has been formed. Its members will carry modern agricultural methods into every land.—World Outlook.

A man is a "young man" until he's thirty-five, and after that he's "mid die-aged" until he's eighty.

FIVE-YEAR-OLDS WILL TALK

And Surely This One Came Near to "Spilling the Beans" for Poor Mamma.

After looking at all the rugs in the store, the customer decided that she thought she liked the pink one with the purple roses best.

"But I'd like to see it in my room," she said. "I suppose you'll send it up on approval?"

"Well, madam, it's—er—hardly usual," demurred the proprietor. "But in the circumstances, perhaps—"

The customer's five-year-old daughter, who had stood silent during the long inspection, now tugged violently at her mother's skirt.

"Oh, mamma," she piped in her fatally clear treble, "hadn't you better warn him to be sure and get it there in time? Our party's tomorrow, you know."

Some Chance for Him.

When Jack Jolly, the golf ball manufacturer, was in town last fall a friend with whom he was playing said: "Jack, do you think I'll ever learn to play this game?"

"How old are you?" asked Jack.

"Forty-two," was the reply.

"Well," retorted Jack, "I have a friend in Scotland who was 81 years old his last birthday and he says his game is still improving."

The pleasure is all yours when the other fellow hands you money.

No homely girl appreciates the fact that beauty is only skin deep.

Each Cup Of INSTANT POSTUM

contains the same uniform quality of goodness that makes this table beverage so popular. Make it strong or mild as you prefer by varying the quantity used. No wonder so many prefer it to coffee, not alone on account of taste but because of its abundant healthfulness. Truly—

There's a Reason for POSTUM

A Determined Speller.
"I understand you gave your youngest baby a mighty queer name."
"Yes," said the vet-ran printer. "I suppose a great many people will think it strange calling a girl 'Bible Jenkins.'"
"What made you do such a thing?"
"I don't like the way folks have gotten into using small type indiscriminately. I made up my mind I would see to it that there will be at least a few occasions when Bible will have to be spelled with a capital B."

In Kamchatka.
Petropavlovsk is the principal city of Kamchatka. Its population is about 1,500. The country offers for sale fish, caviar and furs (especially sable bear furs). In 1913 the peninsula had 700,000 reindeer. Flour, salt, tea and sugar are greatly needed. In mid-summer great quantities of salmon are caught.

Ugly, Unsightly Pimples

Are Signals of Bad Blood
Give Heed to the Warning.
Pimples on the face and other parts of the body are warnings from Nature that your blood is sluggish and impoverished. Sometimes they foretell eczema, boils, blisters, scaly eruptions and other skin disorders that burn like flames of fire.
They mean that your blood needs S. S. S. to cleanse it of these accumulations that cause unlimited trouble.
