AINAHAU TO BE HOTEL SITE

LOCAL CAPITAL WILL BUILD HOSTELRY ON HISTORIC OLD PROPERTY

Ainahu, the beautiful Walkiki estate of the late ex-Governor A. S. Cleghorn, loved by Robert Louis Stevenson—and the bitterest bone of contention during the last legislature—is to be the site of a new hotel backed by local capital.

The deal by which the property was leased was completed yesterday. The name of the lessee is withheld at this time, but it was learned that local persons are interested in the project.

On the first of July the buildings already on the estate will be opened as a hotel. The buildings include one large structure, five cottages and one grass house.

Extensive improvements are planned and additions will be made to the buildings now on the grounds with the idea of making it one of the most desirable tropical hotels. Chief Justice A. G. Robertson and James Jaeger acted for the heirs in making the lease and the brokerage firm of the Dusenbergs as agents.

The lease is made for a short period of time, with the privilege of extension. It includes the entire area of beautiful Ainahu.

The news of the deal came as a surprise to many persons who watched the sharp fight in the legislature last session over a bill which called for the acceptance of the Cleghorn estate as a public park. The bill being finally defeated, which meant the territory's rejection of the Cleghorn will, Ainahu became the property of the heirs, and since then speculation has been keen as to what disposition would be made of it.

It was learned this morning that an announcement will be made the first of the month of the exact plans of the persons interested in the project, but until that time no other statement will be made except that extensive improvements will be undertaken to make the hotel one of the most attractive in the city.

DR. J. W. ROSS WILL SPEAK IN Y.M.C.A. SERIES

Dr. John W. Ross, U. S. N., retired, one of the American physician-scientists who fought and conquered yellow fever in the days when it was a dreaded mystery, will deliver what promises to be one of the most notable addresses in the special lecture series arranged by the Y. M. C. A. He will speak next Thursday night in Cooke Hall, and part of his address will be on the campaign against the mosquito. It was in this campaign that he and other scientists won everlasting gratitude from the people of tropical and sub-tropical countries, in definitely determining the part played by the mosquito in the spread of "yellow jack."

The lecture will be free. It begins at 8 o'clock, and a cordial invitation is extended to all to be present.

SUBMARINES WILL ATTACK THE BIRDMEN ON THE WING

The "Airship-Scarer," disappearing gun used on submarine to rout armies of the clouds.

"Airship Scarers" Will be Sent to Hawaii According to Report of Army Officers

By "underground wireless," which has brought reliable army and navy news to Hawaii far in advance of the official lines of communication time and again, comes the interesting information that while army aviators explore the upper air lines, ready to carry any hostile fleet that might approach Oahu's shores, naval officers will be carrying out a similar mission below the level of the waves. The peculiar connection between possible warfare above the clouds and under the sea is that the submarines will be the safeguard of the American ships against the bombs of hostile airmen.

It would seem that the imagination would have to take a longer flight than that of Lieutenant Geiger and his fellow birdmen to conceive an attack by submarines on flying machines, but as a matter of fact, recent experiments have shown that the submarine, equipped with the proper gun, is one of the deadliest foes of flyers hovering over a fleet.

M'NAB OUT; SAYS LAW BLOCKED

California District Attorney Makes Sensational Charges of Political Influence Preventing Justice

SAN FRANCISCO, Cal., June 21.—John McNab, United States attorney here, has telegraphed his resignation to Attorney General Reynolds and President Wilson and simultaneously made public statements of the most sensational character. McNab charges that strong political influence has been brought to bear at Washington to cause the continuance and if possible to secure the burying of the two noted cases. One of them is the "white slave" case involving Maury Diggs and Drew Canfield, son of Commissioner General Immigration Caminetti, a noted Democratic leader and recent state senator. The two young men were charged with having violated the "white slave" law in taking girls to Reno, Nev. The other case in which McNab declares political pressure has been brought to bear is that against the Western Fuel Company, charged with milking several large steamship and other concerns to the tune of many thousands of dollars by underweighting coal in making sales.
