

THE WORLD'S KALEIDOSCOPE OF EVER-CHANGING EVENTS AS RECORDED BY THE CAMERA MAN

Photo by Harris & Ewing.  
**"ANTIS" ON TRAIL OF SUFFRAGISTS IN WASHINGTON**  
Here are some of the feminine enemies of suffrage who are watching the movements of Congress. Left to right, Miss Florence Hall, of Pennsylvania; Mrs. J. George, of Massachusetts; Miss Lucy Price, of Ohio; Mrs. George P. White, of Philadelphia, and Mrs. Arthur M. Dodge, of New York.

**OLD SUBMARINE RAISED AFTER 20 YEARS**  
This was one of the first underwater craft attempted in this country. On a trial trip it dived and failed to come up again. It has just been lifted from the bed of the river at Chicago after two unsuccessful attempts. It is 30 feet long and five feet wide. It was named "Fool Killer No. 1."

Photo by Medem.  
**DRAMATIC MOMENT AFTER BATTLE IN CHAMPAGNE**  
Three French soldiers were seeking a wounded comrade, using a dog to aid. Suddenly the dog bounded over the wall, carrying the helmet of the wounded man in his mouth. The victim was then quickly located.

**NEW STYLE SLED IS PUSHED BY A "PUT-PUT"**  
These two young men of Springfield, Mass., conceived the idea of attaching a pushmotor, such as is hung to bicycles, to the bobsled to see if it would work. It did, as their contented expression signifies.

**WHAT IS IT?**  
At first glance it might be the head of a strange insect or monster, but turn the picture lengthwise and it is seen to be merely four young women seated on a rock on the shore of a lake.  
[This is an amateur photo taken by Mrs. M. W. Spaulding, of this city. The "Freaking" Ladies will pay well for "freak" or humorous photos. Contributions invited.]

**"STEEL BATTLEPLANE" WHICH MAY REVOLUTIONIZE AIR FIGHTING**  
This new Sturtevant plane, now being considered by the United States Army, is twice the size of the ordinary machine and carries mountings for two gun turrets. It is built of lighter-than-wood vanadium steel and has 140-horsepower motors. It is of heavy build, so as to withstand shocks.

**GERMAN PRISONERS IN NOVA SCOTIA ENJOY A LIGHTER HOUR**  
Time hangs heavily in all prison camps. Rules, severe at first, have been relaxed enough to permit interned men to have harmless amusement. The picture shows how unfortunate subjects of the Kaiser held at Amherst, N. S., occasionally entertain themselves.
