Mr. Rice stood arm's as follows: Clayre Mackey, Edward M. length away, say five feet, when Mr. Simond, Charles W. King, Le Grand Wetherbee told me this paper was Mr. Bouker, Stephen C. Smith, William A. Rice's will, and that Mr. Rice wished Longfield and Charles W. Clark, me to witness his will. The will lay at the time on the table. Mr. Rice signed the paper after he told us he was going to, and Mr. Wetherbee and I both saw him sten it.

Mr. Bowers said he was ready to go on with the proof of the will of 1896, but Mr. Moore, of Moore & Cantwell, who are counsel to Lawyer Patrick in the murder case, objected.

Mr. Moore called attention to the fact that the contest of the 1900 will had been set for Dec. 9, a week later than the date fixed for the trial of Patrick, and he protested that it would be unjust to go on with the contest before the murder trial.

Surrogate Fitzgerald thought so, too. He said:

demand for 7,000 shares. The feature in the early market was figure of Saturday was 120 5-8.

The total sales of stocks to-day wer 1.211,100 shares, and of bonds \$3,457,000.

The Closing Quotations.

tight to prevent air or water from getting in or out, the little cigar-shaped torpedo-boat sank to the bottom of the bay at 7.30 o'clock.

On board were Capt. Cable, Rear-Admiral John Lowe, Lieut. Arthur Mc-Arthur, commander of the torpedo boat Winslow; John Wilson, machinist; John Saunders, engineer, and Henry Worrell, electrician. They had with them food enough to last for fifteen hours, the length of the test, and plenty of warm clothing, as cold weather was expected below. The top of the Fulton's masts were just visible after the boat had settled on the bottom. Are lights kept.

Then he stepped out, and after him done something never done in the world below out on a crane and peered into the vessel through the work and peered into the vessel through the window in the tower,

"They are all right," he cried, and the next instant the head of Capt. Cable appeared, pushing back the cover of the tower.

He was as calm as though he had possible to go right from New Suffolk to New York City and travel the entire distance under water, coming to take our observation. Using our electricity our observation our ablity to remain swome himself out on a crane and peered into the vessel through the work our on a crane and peered into the vessel through the with our of any or and that was the time record we had set out to make. I believe that, with the twelve casks, we could have stayed down three months.

Within three or four days the Fulton will start for Washington under he own power. She will come by the Sound route and pass under the Brookly Bridge.

ing to-day, prices averaging from 1 to 1 1-2 per cent, higher on large dealings

wishes are practically law.

At the meeting of railway presidents to be held here next week in response to the summons of Hill, Harriman and Gould, fully a dozen roads will be represented.

Among the most prominent who will attend are President Harris, of the Chicago, Burlington and Quincy; President Mellen, of the Northern Pacific; President Mohler, of the Oregon Railroad and Navigation Company; President Burt, of the Union Pacific Railroad; President Navigation Company; President Burt, of the Union Pacific Railroad; President President Kruttschmitt, of the South er Pacific.

An agreement as to rates will be made tat his meeting, but it is hardly probable that it will be promulgated, because of the fight against the Morgan-Hill-Harriman-Rockefeller Railroad Trust—other wise the Northern Securities Company—heing made by Gov. Van Sandt, of Minnesota, Aided by the Governors of the other Northwestern States.
