

## YOUNG WIFEHOOD

Boston, Mass., 152 Shawmut Ave., Oct. 25, 1902.  
 After I had been married about four months I felt my health generally decline. I seemed to lose the light step and dragged wearily along instead. My appetite failed me and I lost health and strength. I was nervous and had shooting pains through my limbs and stomach while bearing down pains and constant headaches added to my misery. The menstrual flow became more and more profuse and I was unfit to attend to my daily duties. My husband called in three different physicians and I took enough medicine to kill or cure a dozen women, but it all had no effect on me whatever, until I took Wine of Cardui. In a few days I felt a change for the better, my general health improved and at the next time of my periods my flow was more natural and I was in less pain. Gradually I recovered my health and strength and am now in perfect health. I take an occasional dose of Wine of Cardui which keeps me well.  
 I am happy to give you this endorsement.

*Beth Ricker*  
 President, Back Bay Women's Club.

Why don't you try for the same health Mrs. Ricker has? It is easy to secure if you take Wine of Cardui according to directions. Wine of Cardui strengthens weak and worn-out women of any age and assists the mother and housewife to bear her exacting duties. Wine of Cardui makes women fit for all the duties of womanhood.

It will relieve the pains of irregularity, cures falling of the womb, leucorrhoea, ovarian troubles, and has been known to remove what physicians considered dangerous tumors. Women who use Wine of Cardui do not suffer at the monthly periods. They do not suffer hysterical attacks, because Wine of Cardui gives them strong nerves freed from the irritation of female suffering.

A \$1.00 bottle of Wine of Cardui purchased from your druggist will keep you free from pain.

### GREAT FIRE.

Damage Done Is Estimated at Over One Million Dollars.

New York, Oct. 29.—Fire believed to be of incendiary origin swept over the piers, warehouses and shipping at the Bush Terminal company's stores, South Brooklyn, early Friday. The loss is estimated at more than \$1,000,000. Four fine ocean going steamships were badly damaged, having been ablaze from stem to stern, and hundreds of thousands of dollars' worth of cotton, hemp and the general cargo that the China ships bring in were partially destroyed. After a battle of more than three hours by the entire Brooklyn department, the flames were pronounced under control. At first the firemen could make no headway. Fanned by a strong breeze, the smoke from the burning hemp prevented the men from approaching one section of the fire, while the blaze in the burning cotton and in the holds of the steamships could not be affected by the water.

Policeman Patrick Cushing of Brooklyn was caught at the end of pier 6 and killed. Benjamin Walsh, a fireman, had his skull fractured in a fall down a hatchway. Walsh lay in the hold of the Clitta da Palmero for two hours while fire was around him. As to the fate of the crews of the ships nothing definite is known. The vessels are the American Arizonian and Nebraska of the American and Hawaiian Steamship company and the Clitta da Palmero of the Italian line. They were warped tightly to the pier and tugs could not get alongside owing to the intense heat.

That the fire is of incendiary nature is the belief of two private detectives and two watchmen.

### GREAT AUDIENCE.

Mr. Bryan Says It Was the Largest Under One Roof.

Lansas City, Oct. 29.—W. J. Bryan Thursday night addressed at Convention hall what he declared to be the largest audience he ever spoke to under one roof. Hundreds of people were unable to enter. Mr. Bryan said in part: "I have been told that I ought to retaliate and defeat the men who defeated me four years ago. I have no such mind, but if I had, why should I turn on Parker and Davis, two men who voted for me four and eight years ago. In the east, too, where it was a dangerous thing to do, and make them the victims of my retribution? I have a higher work to do in this world than to get even with any one for my defeat." This sentiment was loudly applauded.

Mr. Bryan explained why he wished his friends to give their support to Parker and Davis, saying that while the election of the Democratic ticket will not insure the immediate adoption of the policies for which he stands, it will pave the way for their adoption, and that the election of Roosevelt and Fairbanks would delay for four years the beginning of needed reform. The speaker again criticized the letter of John Barrett, minister to Panama, in which it is alleged was the statement that the American flag did not stand for anything in the estimation of foreign countries until recently.

### AT HIGH PITCH.

Excitement at St. Petersburg Greater Than Ever Before.

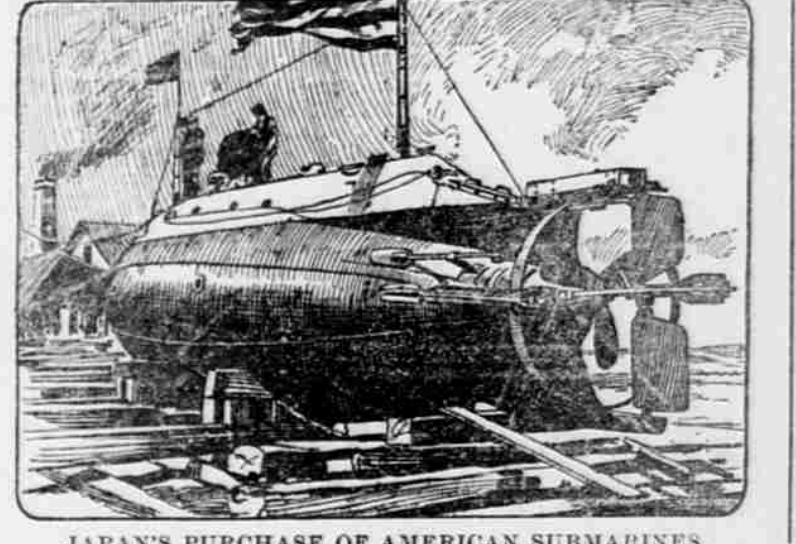

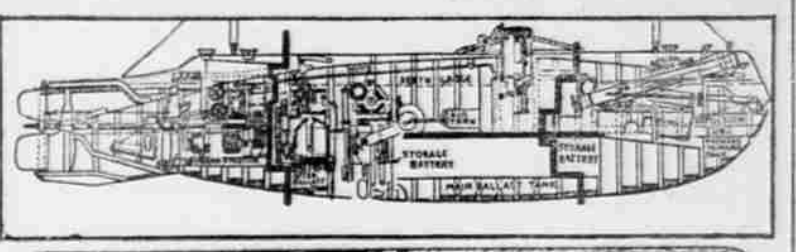

St. Petersburg, Oct. 29.—Popular excitement has reached a pitch unequalled since the beginning of the war. Public sympathy and confidence undoubtedly are with Admiral Rojestvensky, and should Russia choose to stand upon his version without further inquiry, there is no question but such a course would be popular with the masses, who would be willing to back the government in the controversy to the utmost extremity. It is most unlikely, however, that the government will adopt such a course.

### President's Birthday.

THE SINGER AT THE EXPOSITION.

The name of SINGER stands for "family sewing-machine" in every known language. The familiar sign with its brilliant carrying "S" is found in every city in the world, and no product of American skill is better known, or has a wider vogue.

The fact that Singer machines are "made for every stitching process" used in manufactures is not so well known and most visitors to the Exposition will be greatly interested in the exhibit to be made by THE SINGER MANUFACTURING COMPANY.

There will be two Singer pavilions, one in the Manufacturers Building, from the American factories, and one in the Varied Industries Building, from the British factory.

Here one may see the practical manufacture of Corsets, Muslin Underwear, Shoes, Men's Wear, etc., by operatives from leading establishments in these industries. There will be machines for stitching the heaviest rubber and leather belting, for making a dozen dainty trunks at once, for attaching all kinds of buttons, hooks and eyelets, for sewing sails, for stitching kid gloves and furs, in short, for everything that can, or might be stitched.

There are eighty, or more distinct types of Singer sewing-machines for manufacturing purposes, and these types are adapted to many hundred varieties for a thousand or more special uses, all interesting and educational to the great majority of people.

The display of Art Needlework, for which the Singer Company has long been noted, will excel anything previously shown; and the various types of sewing-machines for family use will include some new designs recently perfected and about to be placed on the market.
